**HORTIFRUT S.A. AND SUBSIDIARIES****CONSOLIDATED INTERIM FINANCIAL STATEMENT NOTES****As of June 30, 2022 (unaudited) and December 31, 2021.****NOTE 1 – CORPORATE INFORMATION****1.1. Information of the reporting entity**

Hortifrut S.A. RUT 96.896.990 – or (hereinafter “Hortifrut” or the “Company”) is a Publicly Traded Company, inscribed in the Registry of the Commission for the Financial Market in Chile under number 1.096 dated June 13, 2012, so it is subject to the supervision of the Commission for the Financial Market (hereinafter “CMF” ex SVS).

The Company is also inscribed in the Santiago Stock Exchange dated July 3, 2012, with the objective that the Company’s shares be traded in the “Emerging Companies Markets” which the Stock Market regulates, in accordance with what is stated in second subsection of article 8° of Law 18.045 of the Stock Market and under General Character Norm N° 118 of the CMF. The Company’s shares are recognized under the ticker symbol “HF”.

The Company was initially constituted as a Closely held Corporation under the name of Inversiones Hortisur S.A., as per public deed dated June 4, 1999, issued at the Santiago Notary of Mr. Patricio Raby Benavente, subsequently by public deed dated May 29, 2007, issued at the Santiago Notary of Mr. Iván Torrealba Acevedo, the company changed its corporate name to Hortifrut S.A.

Hortifrut, has as its objective the purchase, production, elaboration, transformation, industrialization, distribution, commercialization, export, import of all kinds of horticultural, fruit, agricultural and other products or byproducts, as well as the providing of services or consulting in relation to said matters and other activities which the Board or the Shareholder Meetings agree, and which are related with the aforementioned activities or that complement them; the maintenance of investments in real estate and in instruments, securities, and rights in partnerships, and in the receipt of their earnings and, in general, to enter into and execute all the acts, contracts, businesses, procedures or actions that have as their aim to comply with the corporate purpose.

The Company has its address at Avda. del Cóndor 600, 4th floor, Huechuraba, Santiago, regardless of the agencies, offices or branches which could be established in the country and overseas. The Company’s corporate life is indefinite.

History

1983 – Hortifrut begins its operations in Chile.

1984 – Hortifrut becomes the first Chilean company to export berries to the United States in counter-seasons.

1985 – Hortifrut inaugurates a distribution and commercialization office in the United States.

1986 – First export of berries from Chile to Europe under its brand Southern Sun and the berries crop is expanded to blackberries, blueberries, raspberries and sarsaparillas.

1987 – First export of berries to Asia from Chile.

1988 - Hortifrut concretes its first strategic alliance when it associates with the Californian company Coastal Berries.

1989 - Hortifrut defines its business model: vertical integration and offer during the 52 weeks of the year.

Hortifrut defines its company dream and Vision, to supply the counter-season market with the full berries category (strawberries, raspberries, blackberries and blueberries), in just one organization, under one brand, supplying the market 52 weeks a year, integrated from the paddock to the final customer, defining the great dream with the sentence: "**All Berries, for the Whole World, Every Day**". Thus, Hortifrut created a global and successful business model.

1990 – Hortifrut invites the main berries producers from the United States and together they purchase the Naturipe® brand and form Naturipe Farms.

1995 – Export and producer subsidiaries are created in Mexico and Guatemala.

1999 – Hortifrut Argentina is created.

2000 – Hortifrut Spain is created together with the main Spanish blueberries producer.

2001 – Beginning of the genetic development program for blueberries, raspberries and blackberries.

2004 – Hortifrut and Atlantic Blue create Euroberry Marketing, in charge of distributing and commercializing in Europe.

2007 – Hortifrut's Chairman receives the ICARE prize for being the businessman of the year.

2008 - Hortifrut becomes the largest organic blueberry producer in the world. It receives the Marketer of the Year prize (PMA Produce Marketing Association USA), opens its distribution office in Brazil and begins implementing the SAP system.

2010 – Begins the Ready to Eat ("RTE") program.

2011 – Hortifrut and its partner Munger Brothers receive the prestigious award for innovation for the RTE product in the PMA USA.

2012 – Start supplying RTE blueberries to food-service leaders.

Successful entrance into the stock market, raising over 67 million dollars in capital.

2012 Agricultural Innovation Prize for Víctor Moller Schiavetti, for having contributed in a relevant manner to transforming the national agro-forestry and food sector and the economic, productive and technological process in the country.

2013 – On August 21, 2013, Hortifrut obtained control of VitalBerry Marketing's operations, in accordance with the merger agreements adopted at the VitalBerry Marketing and Hortifrut shareholder's meetings, held on April 29 and 30, 2013, respectively.

Hortifrut has been delivering Berries to the world for 30 years, every day of the year.

2014 – The constitution of a closely-held corporation in Peru, denominated Hortifrut – Tal SAC, with the objective of producing and commercializing berries from Peru.

Association with the Argentine company Expofresh, for the production and commercializing of early fruit.

Signing of the Joint Venture with Joyvio for genetic development in China.

2015 – The constitution of a closely-held corporation in Peru, denominated HFE Berries Peru SAC, with the objective of producing and commercializing berries, from this country.

Launching of the Agrinnovation and Blue Challenge platform.

2016 – The Joint Venture between Hortifrut and the Munger Brothers Group was constituted, with the objective of producing and commercializing berries in the United States.

2017 – Hortifrut's Chairman receives Entrepreneur of the Year prize, granted by EY and El Mercurio, in Chile. The latter also distinguished him within the EY World Entrepreneur of the Year competition, in Monaco.

Signs framework agreement for the sale-purchase and merger with the Rocio Group, one of the most important producers, exporters and distributors of blueberries in the southern hemisphere.

2018 – Materialization of the sale-purchase and merger of Rocio Group's blueberries business, with which 1,450 hectares planted in Peru were incorporated into Hortifrut, thus consolidating its position as a leader in the global berries market.

Hortifrut Chile S.A. (subsidiary of Hortifrut S.A.) was certified as a B Corporation, thus becoming the largest Chilean company to obtain this important international acknowledgment, related with Sustainability.

2019 – Dated May 09, 2019, the Company concreted its inaugural placement of bonds corresponding to Series A Bonds and Series B Bonds, for a total of UF 2,250,000. Series A Bonds count with green and social certification of Vigeo Eiris.

Dated April 30, 2019, the realization of an increase in capital was approved for US\$160 million. The funds from the aforementioned placement, will be destined to financing organic growth in the countries that supply the markets of North America, Europe and Asia. The placement of these shares took place from July 2019.

On September 20, 2019, as part of the Company's strategy to boost blueberry sales and to get closer to the main destination markets, Hortifrut established a commercial alliance with Proplantas, a Colombian family-owned company pioneer in the sale of strawberries and blueberries in said country. The agreement contemplates the creation of a platform to export blueberries from Colombia, from March 2020.

Dated October 15, 2019, Hortifrut and Alifrut, subsidiary of Duncan Fox, reached an agreement to globally combine and develop their frozen added value products export business in equal parts.

2020 – Dated July 31, 2020, Hortifrut and Alifrut combined the export of frozen fruits and vegetables of both companies, with the purpose of encouraging the international development and growth of innovative products with added value, thus adapting to the new lifestyles of consumers in the main consumption markets in the world, such as the United States, Europe, Asia and Oceania. This operation will take place through the subsidiary Vitafoods SpA.

2021 – In January 2021, Hortifrut S.A. and AeroFarms, leader in vertical agriculture in controlled environments, signed an agreement to together develop and investigate the harvesting of blueberries and other berries in completely controlled environments and vertical farms.

Dated December 01, Hortifrut Inversiones Internacionales S.A. signed a sale-purchase agreement with the Atlantic Blue Group, to purchase 100% of Atlantic Blue, S.L.'s share capital and its subsidiaries, Berries genetic development, processing, producer and commercializing company, with operations in Spain, Morocco and Peru. With said transaction, the Atlantic Blue Group became part of Hortifrut S.A.'s consolidated Financial Statements from the date of the sale-purchase contract.

2022 – In May 2022, the sale of 75% of the HFE Berries Perú S.A.C. company was materialized to a subsidiary 100% owned by Public Sector Pension Investment Board (PSP Investments), one of Canada's largest pension fund administrators. HFE Berries Perú S.A.C. owns 100% of the field at Olmos, located in Peru, and has a planted surface of 397 hectares. This transaction is part of the company's growth strategy, forming associations and alliances with investors and strategic partners. Through these associations Hortifrut will remain the managing partner and operator, being able to accelerate its growth based on its escalation and agricultural management strength, global commercialization and its genetics programs.

1.2. Shareholders

1.2.1. Parent Company Shareholders

The Company is jointly controlled by FM Group, Vitalberry Group and the Quevedo Group through a Shareholders Agreement, subscribed on July 03, 2018. The FM Group is formed by Inversiones IMG Ltda., San Juan de Virquenco Tres S.A. and Agrícola San Nicolás Ltda. The Vitalberry Group is formed by San José Farms S.A., Exportadora San José Trading Ltda. and Inmobiliaria Algeciras Ltda. The Quevedo Group is formed by Talsa Chile SpA and Inversiones Copemira SpA.

The Agreement covers 296,686,635 of Hortifrut S.A.'s shares, which represent 51.39% of the Company's capital (out of a total of 577,323,671 Hortifrut issued shares), through which they have control of the Company. In accordance with this agreement, none of the aforementioned groups can reduce their participation in Hortifrut S.A.'s property below 17.13%, interest equal to 98,895,545 shares. The shares that any of the parties have over 17.13% of the Company's shareholder capital, are Freely Disposable Shares.

As of June 30, 2022, the FM Group, the Vitalberry Group and the Quevedo Group jointly own 53.82% of the Company's capital, considering the shares they have in custody.

To date the shareholder's agreement records the following shares:

<u>Shareholder's Agreement</u>	<u>Total Shares</u>	<u>Ownership Percentage</u>

NOTE 2 – PREPARATION BASES

2.1. Compliance Declaration

Hortifrut S.A. and subsidiaries' consolidated interim financial statements corresponding to the period ending June 30, 2022, were approved by the Board at meeting held on September 05, 2022 and those for the period ending June 30, 2021, were approved by the Board at meeting held on September 07, 2021.

2.2. Preparation Bases

Hortifrut S.A. and subsidiaries' current consolidated statements of Financial Position as of June 30, 2022, the Consolidated Interim Comprehensive Income Statements per function for the six and three month periods ending June 30, 2022 and 2021, the Consolidated Interim Statement of Changes in Net Equity and the Consolidated Interim Cash Flow Statements for the six month periods ending June 30, 2022 and 2021, have been prepared as per the established by International Accounting Standard N°34 (IAS 34) "Interim Financial Information", incorporated in the International Financial Reporting Standards ("IFRS").

Hortifrut S.A. and subsidiaries' Consolidated Financial Statements as of December 31, 2021, have been prepared as per International Financial Reporting Standards ("IFRS") and were approved by the Board on March 30, 2022.

The consolidated financial statements have been prepared under the historic cost basis, except for the following items of a significant character:

- Financial instruments
- Non-current assets, classified as held for sale
- Current biological assets
- Loans and obligations that accrue interests at an amortized cost
- Lease contracts

The preparing of the consolidated financial statements requires the use of certain estimations based on the best information available at the closing of the period. In Note 2.6, we reveal the estimations that imply a greater level of judgment or complexity over the areas where the hypothesis and estimations are significant for the consolidated financial statements.

Reclassifications have been made to the consolidated financial statements of the previous year for effects of a better comparability of the exposed information, these arise from the recurring analysis performed by Management, always with the perspective of uniform financial information.

Reclassifications have been made to the interim consolidated financial statements of the previous year for effects of a better comparability of the exposed information, these arise from the recurring analysis performed by Management, always with the perspective of uniform financial information.

The current consolidated financial statements have been prepared under the going concern principle.

2.3. Covered period

The current consolidated interim Financial Statements cover the following periods:

- Consolidated interim statement of financial position for the period ending June 30, 2022, and the period ending December 31, 2021.

- Consolidated interim Income Statement, for the half year and quarter year periods ending June 30, 2022, and 2021.
- Consolidated interim Comprehensive Income Statement, for the half year and quarter year periods ending June 30, 2022, and 2021.
- Consolidated interim Statement of Changes in Net Equity, for the periods ending June 30, 2022, and 2021.
- Consolidated interim Cash Flow Statement, for the periods ending June 30, 2022, and 2021.

2.4. Functional and presentation currency

The items included in the financial statements of each of Hortifrut S.A. and its subsidiaries entities are valued using the currency of the main economic environment where the entity operates (functional currency). Hortifrut S.A.'s functional currency is the United States dollar, which also constitutes the presentation currency of the consolidated financial statements. All the information is presented in thousands of United States dollar and has been rounded to the closest unit (ThUS\$).

For Hortifrut S.A. and Subsidiaries' entities whose functional currency is different to the parent company's presentation currency, the financial results and situation are translated as per the guidelines described in Note 2.4.3.

2.4.1 Transactions and balances in foreign currency

Transactions in foreign currency, with this being any currency different to the functional currency, are converted to the functional currency by using the valid exchange rates on the dates of the transactions. Profit or loss in foreign currency that results from the liquidation of these transactions and conversion to the exchange rate valid at the closing of the monetary assets and liabilities denominated in foreign currency, are recognized in the consolidated income statement.

2.4.2. Foreign currency exchange rate

The exchange rates have been translated as of the closing date of Hortifrut's consolidated financial statements as per the following:

Currency	Nemo	30-Jun-22		31-Dec-21	
		Closing	Annual Average	Closing	Annual Average
Chilean Peso	CLP	932.08	824.84	844.69	759.27
Euro	EUR	0.96	0.91	0.88	0.85
Mexican Peso	MXN	19.98	20.28	20.58	20.28
Argentine Peso	ARS	127.00	112.02	104.75	95.03
Brazilian Real	RBL	5.24	5.07	5.63	5.40
Peruvian Nuevo Sol	PEN	3.79	3.77	3.99	3.88
Colombian Peso	COL	4,127.47	3,907.41	3,981.16	3,691.74
Sterling Pound	GBP	0.83	0.77	0.74	0.73
Yuan	CNY	6.71	6.49	6.38	6.45
Moroccan Dirham	MAD	10.17	9.46	9.29	8.97
Unidad de fomento	UF	0.02817	0.02586	0.02726	0.02547

This table presents the parity of foreign currency for one United States dollar.

The calculation of the exchange rate corresponding to the accumulated average, is determined over the average based on the daily closing exchange rates.

Entities corresponding to Hortifrut and subsidiaries

The results and financial position of all of Hortifrut and subsidiaries' entities which have a functional currency different to the reporting currency are converted to the reporting currency as follows:

- i) The assets and liabilities of each presented statement of financial position are converted at the closing exchange rate of the period;
- ii) Income and expenses of each income statement account are converted at the daily exchange rate or when this is not possible, the average monthly exchange rate is used as a reasonable approximation; and
- iii) All of the resulting exchange rate differences are recognized under other comprehensive income and the conversion reserve under net equity.

2.5. New accounting pronouncements

As of the date of issuance of these Consolidated Financial Statements, new Standards, Improvements, Amendments and Interpretations have been published for the existing standards which have become valid in the period and those which are not yet valid and which the Company has not adopted beforehand. These are of mandatory application from the dates indicated below.

Amendments and improvements:

Standards and Interpretations	Content	Mandatory for periods beginning on:
IFRS 3	Onerous Contracts – cost of fulfilling a contract	01-01-2022
IAS 16	Property, plant and equipment: proceeds before intended use	01-01-2022
IAS 37	Onerous Contracts – cost of fulfilling a contract	01-01-2022

During the period ending June 30, 2022, the Amendments and improvements have been analyzed and no impact has been determined for Hortifrut in the current Financial Statements.

New accounting pronouncements

The following new Standards, Amendments and Interpretations have been issued, but their application date is not yet valid:

Standards and Interpretations:

Standards and Interpretations	Content	Mandatory for periods beginning on:
IFRS 17	Insurance Contracts	01-01-2023

The entity will perform the evaluation of the impact of the amendment once it becomes valid.

Amendments and improvements:

Standards and Interpretations	Content	Mandatory for periods beginning on:
IAS 1	Classification of liabilities as current or non-current	01-01-2023
IAS 8	Definition of accounting estimations	01-01-2023
IAS 1	Revelation of accounting policies	01-01-2023
IAS 12	Deferred taxes related with assets and liabilities that arise from a single transaction	01-01-2023
IFRS 10 and IAS 28	Consolidated Financial Statements – sale or contribution of assets between an investor and its associated or joint venture	To be determined

2.6. Use of estimations and judgments

Based on IAS 1, the preparing of the consolidated financial statements requires the use of judgments, estimations and assumptions that affect the amount of assets, liabilities, revenue and expenses as of the date of presentation of the consolidated financial statements. These estimations and assumptions are based on Administration's best knowledge.

When preparing the consolidated financial statements, the following estimations have been defined:

(i) Judgments

- Determining fair value of the current biological assets based on non-observable significant data entries (Note 13).
- Useful life and residual values of Properties, plants and equipment (Note 20).
- The hypothesis employed to calculate the estimations of un-collectability of debtors due to sales and customer accounts receivable (Note 10).
- Recognizing of Revenue (Note 3.20)
- Other Cost Provisions (Note 3.19).
- Sales Cost Provisions (Note 3.22).
- Assignment, terms and rates for lease contracts (Note 3.24 b)
- Calculation of equity impairment test (Note 3.6 and 19)
- Recoverability of the deferred tax assets from tax loss (Note 22b).

(ii) Measurement of fair values

The Company counts with a control framework established in relation to the measuring of fair values.

The Company regularly checks the significant non-observable variables and valuation adjustments.

If third party information is used, such as quotations from brokers or price establishing services, to measure fair values, the evidence obtained from third parties is evaluated to back the conclusion that these valuations satisfy the requirements of IFRS, including the level within the fair value hierarchy where these valuations should be classified.

When the fair value of an asset or a liability is measured, the Company uses observable market data whenever possible. Fair values are classified at different levels within the fair value hierarchy which is based on the variables used in valuation techniques, as is detailed in Note 7.3.

2.7. Changes in accounting policies

During the period ending June 30, 2022, no changes in the accounting policies have taken place.

NOTE 3 – PRINCIPAL APPLIED ACCOUNTING POLICIES

3.1. Consolidation Basis

i) Business combination

Hortifrut S.A. and its subsidiaries, recognize in their consolidated financial statements the identifiable assets (including intangible assets that have not been recognized beforehand) and the assumed liabilities of any interest in companies acquired at fair value, as per IFRS 3, issued and revised by IASB. Also, it recognizes and measures any goodwill or gains from the purchase of these entities. The goodwill generated in a business combination is initially measured at cost. After the initial recognition, it is measured at cost minus any accumulated loss due to impairment. For the purpose of impairment tests, goodwill acquired in a business combination is assigned from the date of acquisition to each cash generating unit or group of these which is expected to benefit from the synergies of the combination.

If the cost of acquisition is lower than the fair value of the net assets of the acquired company, the difference is recognized in results and is presented in the line Other profit (loss). If the initial accounting of a business combination is determined only in a provisional manner, the Company, during the measurement period, will retroactively adjust the acquired provisional amounts, in accordance with the new information obtained. Furthermore, it will recognize any additional asset or liability if any new information is obtained, as long as the measurement period does not exceed a year from the date of the purchase. The business combinations are recorded using the acquisition method as of the date when control is transferred to the Group. Control is understood to be the power to direct the financial policies and the operation of an entity in order to obtain benefits from its activities. The Group values goodwill as of the acquisition date as:

- The fair value of the transferred considerations;
- The recognized amount of any non-parent company interest in the acquired company;
- Plus if the business combination is performed in stages, the fair value of the existing interest in the equity of the acquired;
- Minus the net recognized amount (in general, the fair value) of the identifiable acquired assets and the identifiable assumed liabilities.

Goodwill is the excess of the amount of the transferred consideration recorded over the net value of the acquired assets and the assumed liabilities. If the fair value of the acquired net assets exceeds the value of the transferred consideration, the Company will perform a new evaluation to make sure that all the acquired assets and assumed obligations have been correctly identified and it checks the applied procedures to perform the valuation of the recognized amounts on the date of acquisition. If this new evaluation results in an excess of the fair value of the net acquired assets over the added value of the transferred consideration, the difference is recognized as a profit in the income statement.

ii) Subsidiaries

The consolidated Statements of Financial Position incorporate Hortifrut's financial statements and those of the companies controlled by the Company (its subsidiaries). To have control is when the Company has power over the subsidiary, when it has exposure or the right to variable yields from its implication in the subsidiary and when it has the capacity to use its power to influence the amount of the investor's returns. When evaluating if the Company controls another entity, it must consider the existence and the effect of the potential rights to vote that can currently be executed or converted.

Subsidiaries are consolidated from the date when control is transferred and are excluded from the consolidation on the date that these end.

The acquisition method is used to record the acquisition of subsidiaries. The cost of acquisition is the fair value of the delivered assets, of the issued equity instruments and of the incurred or assumed liabilities on the date of the exchange. The acquired identifiable assets and the identifiable liabilities and contingencies assumed in a business combination are initially valued at their fair value on the date of the purchase, regardless of the scope of the interests of non-controlling companies. The excess acquisition cost over the fair value of the Company's interests in the acquired net identifiable assets, is recognized as lower value or goodwill. If the acquisition cost is lower than the fair value of the net assets of the acquired subsidiary, the difference will be directly recognized in the income statement.

Inter-company transactions, balances and earnings not realized for transactions between related entities are eliminated. The non-realized losses are also eliminated, unless the transaction provides evidence of a loss due to impairment of the transferred asset. When it is necessary to assure its uniformity with the policies adopted by Hortifrut and subsidiaries, then the accounting policies of the subsidiaries are modified.

Below is a detail of the direct subsidiaries included in the current consolidated financial statements:

Companies	RUT	Country of origin	Functional Currency	30-Jun-22			31-Dec-21		
				Direct %	Indirect %	Total %	Direct %	Indirect %	Total %
Hortifrut Inversiones Int. S.A. and subsidiaries	76.043.425-6	Chile	US\$	99.9999	0.0001	100.0000	99.9999	0.0001	100.0000
Hortifrut Ltd.	0-E	Ireland	EUR	100.0000	-	100.0000	100.0000	-	100.0000
HFCB Holdco SpA	77.528.364-5	Chile	US\$	100.0000	-	100.0000	100.0000	-	100.0000

The detailed Companies correspond to direct subsidiaries where control is kept.

Modifications to the consolidation base

During the period ending June 30, 2022, no new companies have been incorporated into the consolidation of Hortifrut group's financial statements.

Other Changes

Dated May 25, 2022, the sale of 75% of the HFE Berries Perú S.A.C. company was materialized, which was classified as Assets and Liabilities for sale and its results were consolidated until April 30, 2022, line by line since it did not correspond to a discontinued operation. Also, the remaining 25% went on to form part of investments at associates.

During the period ending December 31, 2021, the following companies were incorporated into the consolidation of Hortifrut group's financial statements:

Hortifrut Ecuador S.A.

Dated July 01, 2021, Hortifrut Inversiones Internacionales S.A., purchased 50.1% of the Hortifrut Ecuador S.A. company, corporate capital is US\$200 thousand.

Horto Frutas Portugal Unipersonal LDA.

Dated April 08, 2021, Hortifrut Inversiones Internacionales S.A., proceeded to pay the committed contribution with the Horto Frutas Portugal Unipersonal LDA. company, incorporating it into its consolidated financial statements.

This company was legally constituted on February 19, 2020, by the company Hortifrut Inversiones Internacionales S.A. with a 100% interest, corporate capital is 1,000 euros.

Atlantic Blue, S.L.U.

Dated December 01, 2021, Hortifrut through the subsidiary Hortifrut Inversiones Internacionales S.A., materialized the purchase of 100% of Atlantic Blue, a leading company in the genetic development, production and commercialization of blueberries in Europe and North Africa, with headquarters in Huelva, Spain, and with whom it has maintained a productive and commercial company since 2000.

With this purchase, the Company also incorporated the following Atlantic Blue subsidiaries: 100% of Royal Berries, S.L.U., 76% of Atlantic Green S.L., 75% of Atlantic Blue Berries Maroc S.A.R.L, also includes the participation of 65% of SAT Hortifrut H-0030 de R.L., 100% of Hortiblue Maroc, S.R.L.A.U., companies where Hortifrut already had a minority participation. Also, it includes the 50% participation at Hortifrut España Southern Sun, S.L.U. and 50% of Euroberry Marketing S.A., where Hortifrut already maintains control, completing 100% of these last two companies.

As part of said operation, Hortifrut Inversiones Internacionales S.A. purchased the participation of the minority owners in Atlantic Blue Group's following subsidiaries: 1) 24% of the Atlantic Green S.L. property (52,584 shares), 25% of the Atlantic Blue Berries Maroc S.A.R.L property (1,250 shares) and 49% of the Hortifrut Berries Maroc S.R.L property (9,800 shares).

HFCH Holdco SpA

Dated December 10, 2021, Hortifrut S.A. constituted the company HFCH Holdco SpA, which has as its main objective to perform all kinds of investments, whether it be in the country or overseas. The company's capital is 1,000 United States of America dollars, divided in 1,000 shares.

Dated December 27, 2021, through public deed, Hortifrut S.A. performed a capital increase to HFCH Holdco SpA for the amount of 92,594,054.17 United States of America dollars divided in 92,594,054 shares, which were paid in the act with investments at tax cost for the amount of 92,489,409 United States of America dollars and an account receivable to Agrícola El Avellano S.A., tax cost of 104,645.17 United States of America dollars. The detail of investments and their corresponding costs is as follows:

Subsidiaries	US\$	Shares	Interest %
Agrícola Hortifrut S.A.	24,491,084.95	4,590,132,135	99.99%
Hortifrut Chile S.A.	32,108,834.04	48,692,895,448	99.99999%
Vitafoods SpA	26,817,771.51	48,692,895,448	49.9954%
Hortifrut Comercial S.A.	608.22	1,972	0.01%
Agrícola Los Hualles SPA	5,895.44	400	40.00%
Agrícola El Avellano S.A.	4,868,352.52	2,022,344	40.00%
Agrícola Mataquito S.A.	2,411,677.72	1,060,771	50.00%
San Clemente Hortifrut (Shangai) SPA	708,417.85	450	50.00%
Agrícola Santa Rosa del Parque S.A.	747,869.28	322,743	30.00%
Agrícola Vida Nueva S.A.	284,149.72	38,000	50.00%
Agrícola y Ganadera Santa Rebeca Ltda.	44,747.75	Rights	25.00%
Total investments	92,489,409.00		

HFCH Holdco SpA as of December 31, 2021, maintains a capital of 92,595,054.17 United States of America dollars, divided in 92,595,054 nominative, ordinary shares, of a single series and without nominal value, which is integrally subscribed and paid by the Hortifrut S.A. shareholder.

Hortifrut Ltd.

Dated November 4, 2021, Hortifrut S.A. purchased the company Hortifrut Ltd., a private limited stock company. The Company's capital is divided by 100 ordinary shares at the value of US\$1 each. In the first instance these shares were subscribed by Messrs. Andrew Lambe and Paula Horan with 50 shares each.

Other Changes

Through an extraordinary shareholders meeting held on June 30, 2021, the merger due to incorporation of the company Hortifrut Inversiones Internacionales S.A. with Inversiones Hortifrut S.A. was approved.

As a result of the merger, Hortifrut Inversiones Internacionales S.A purchased all the assets, rights, authorizations, permits, obligations and liabilities of Inversiones Hortifrut S.A. and succeeds it in all its rights and obligations. Due to the merger, the total of the equity and shareholders were incorporated into Hortifrut Inversiones Internacionales S.A. and Inversiones Hortifrut S.A. was dissolved, by this act, without the need to perform its liquidation.

After the merger, the share detail of Hortifrut Inversiones Internacionales S.A. is as follows:

Name	Rut	Shares	Paid Capital USD	Shares Interest %
Hortifrut S.A.	96.896.990-0	6,632,524	327,740,848.56	99.9999849%
Agrícola Hortifrut S.A.	79.764.840-K	1	49.41	0.0000151%
Total		6,632,525	327,740,897.97	100.0000000%

As of December 31, 2021, Hortifrut S.A., together with its subsidiary Hortifrut Inversiones Internacionales S.A. and subsidiaries, has decided to classify its subsidiary HFE Berries Perú S.A.C. as available for sale. It is 100% controlled by Hortifrut Inversiones Internacionales S.A. (50.05% direct interest and 49,95% indirect interest through its subsidiary Hortifrut España Southern Sun, S.L.U.), thus no longer consolidating this company's assets and liabilities line by line. On the other hand, the results of the period ending December 31, 2021, were consolidated line by line because it did not correspond to a discontinued operation.

iii) Transactions and non-controlling interests

The interests of non-parent companies are presented in the item Net Equity of the consolidated statement of financial position. The profit or loss attributable to the non-controlling interest is presented in the consolidated income statement, constituting the profit (loss) of the period. The results of transactions between the non-controlling shareholders and controlling shareholders of the companies where the property is shared, are recorded under equity and, therefore, are shown in the statement of changes under consolidated net equity.

iv) Associates

Associated companies are all the entities over which Hortifrut S.A. and its subsidiaries have a significant influence, but do not have control over the financial and operating policies, generally with an ownership between 10% and 50%. Investments in associates are recorded when formed or purchased at cost and are subsequently adjusted via the equity method. Hortifrut S.A. and its subsidiaries' investments in associates include Goodwill identified in the acquisition, net of any loss due to accumulated impairment.

The non-realized earnings due to transactions between the Company and its associates are eliminated based on the Company's interest percentage. The non-realized losses are also eliminated, except if the transaction provides evidence of loss due to impairment of the asset that is transferred.

Hortifrut S.A. and its subsidiaries' participation in the profit or loss after the acquisition of its associates is recognized in results, and its interest in the equity activities after the acquisition is recognized under reserve within Net Equity. When Hortifrut S.A. and its subsidiaries' interests in the loss of an associate is the same or higher than its investment in it, including any other non-insured account receivable, Hortifrut S.A. and its subsidiaries will not recognize additional loss, unless it has incurred in obligations or performed payments on behalf of the associate.

3.2 Operating Segments financial information

IFRS 8 demands that entities adopt "the Administration focus" when revealing information regarding the result of its operating segments. In general, this is the information that Management and the Board use internally to evaluate the performance of the segments and to decide how to assign resources for these.

Hortifrut S.A. and subsidiaries presented information per segment, considering two segments:

Fresh fruit, which includes:

- Blueberries
- Raspberries
- Blackberries
- Strawberries
- Cherries

Value added products, which include:

- Frozen products
- Dehydrated
- Other fruit products which are not Fresh Fruit.

"Fresh fruits" show similar economic characteristics, which allow the aggregation in a single aggregate operating segment (IFRS 8.12). The segment denominated "Value Added Products" considers the Quantitative thresholds (IFRS 8.13) such as that administration, customers and distribution channels are different to those of the "Fresh Fruit" segment. Each of these segments share similar characteristics, such as:

- a) The nature of the products

In this sense Hortifrut considers that fresh fruit, even if it is of a different species, it is of a similar nature (Berries).

- b) The nature of the production process

Even though the purchase of fresh fruit from producers and of own production is differentiated by species, they all share the same productive, installations and distribution process until they reach the final consumer, and only the fruit that does not comply with the quality characteristics requested by customers is destined to the Frozen Fruit process.

- c) Category of Customers the products are destined to

There is no difference in customers in relation to the type of fresh fruit. Hortifrut's customers buy the fruit supply that is available, complying with the specific quality requirements established by them. Requirements are not related with the type of fruit, but with food safety aspects.

d) Methods used to distribute the products

Hortifrut has developed a commercial platform which allows it to use, no matter which fruit, a uniform, efficient and effective distribution chain. Hortifrut's business has been based on vertical integration to offer the markets the mix of fruits that satisfies their needs.

"Fresh Fruit" and the "Value Added Products" segment, enable access to information regarding business activities and their economic environment.

3.3 Property, plant and equipment

The Company's property, plant and equipment comprises land, constructions, infrastructure, machinery, equipment, bearer plants and other fixed assets.

3.3.1 Land, constructions, plants, equipment and machinery

Land is recognized at its purchase cost. Constructions, plants, equipment and machinery are recognized, both at the initial moment and subsequently, at cost minus the corresponding accumulated depreciation and impairment, in case it exists.

Subsequent costs (improvements, expansions and works in progress) are included in the value of the initial asset or are recognized as a separate asset, only when it is probable that the future economic benefits associated with the fixed asset elements will flow to the Company and the cost of the element can be determined in a reliable manner. In the case of the replacement of components, the value of the substituted component is cancelled for accounting purposes.

Costs from daily maintenance and common repairs are recognized in the period's result.

Profit or loss from the sale of Property, plants and equipment are calculated comparing income obtained from the sale with the book value of the asset (net of depreciation) and are recorded in the consolidated income statement under the item Other income o expenses per function.

3.3.2 "Bearer Plants"

Due to the application of Amendment to IAS 16 and IAS 41, which became valid on January 1, 2016, fruit "bearer plants" are considered a machinery item in a manufacturing process, so their value is classified under Property, plant and equipment and recorded as specified in IAS 16.

Fruit "bearer plants" can be differentiated depending on their productive state between the development stage and production stage, and are valued as per the following criteria:

a) "Bearer plants" in development

"Bearer plants" in development are valued at the acquisition and/or production cost of the plants plus the costs to maintain them until the date when they start producing.

b) "Bearer plants" in production

The accounting policy of the valuation of "bearer plants" in production is at historic cost, minus its corresponding depreciation and accumulated impairment, if it exists. It must be stated that determined cost includes the revaluation recorded until December 31, 2015, date when the amendment to IAS 16 and 41 came into effect.

“Bearer plants” are considered to be in production from the first season when they start to produce, regardless of the corresponding species (blueberries, raspberries, blackberries and cherries).

Nevertheless, if the period of time that passes between the plantation date and the current season surpasses the following thresholds, the plantation must still be considered in production, regardless if it had its first harvest or not:

- Tropical blueberries: 2 years
- Temperate blueberries: 4 years
- Raspberries: 1 year
- Primocane blackberries: 1 year
- Floricane blackberries: 2 years
- Cherries: 4 years

When “bearer plants” enter the production stage, it means the start-up of the depreciation of the asset, as is explained in point 3.3.3. If the book value is modified due to the presence of impairment in “bearer plants”, said decrease in the value will be attributed directly to results in the period under the account Other expenses, per function.

3.3.3 Depreciation

Depreciation of the components of Property, plants and equipment (except “bearer plants”) is calculated using the lineal method, distributing it in a systematic manner during its useful life. This useful life has been determined based on the natural expected impairment, technical or commercial obsolescence derived from the changes and/or improvements in production and changes in the market’s demands for the products obtained in the operation with said assets. Land is not depreciated.

Depreciation of “bearer plants” is calculated according to its production forecasted in the useful life of the plant and is assigned as per real production curves. In the case of plantations that are located on leased land, the useful life is adjusted as per the maturity of the corresponding lease contract.

The estimated useful lives are as follows:

	Minimum Life or Rate Years	Maximum Life or Rate Years
Construction and infrastructure works		
Steel, reinforced concrete constructions	30	80
Wooden buildings	10	30
Provisional constructions	8	10
Minor agricultural construction (macro-tunnel and others)	3	8
Machinery and equipment	8	10
Information technology (IT) equipment	3	6
Furniture and supplies	5	10
Motor vehicles	8	10
Bearer plants		
Blueberries	10	25
Raspberries	3	5
Blackberries	5	10
Cherries	10	25
Assets for Right of Use	As per duration of the contract	

The installations that the Company keeps temporarily inactive, continue with their depreciation as per the lineal method.

The residual value and the useful life of the assets are checked, and adjusted if necessary, at each closing of the financial statements of position in order to obtain a remaining useful life as per the value of the assets.

The effects of depreciation are presented under cost of sales, administration expenses or other expenses per function, whichever corresponds.

3.4. Biological Assets, current

As per what is established in IAS 41, agricultural products that grow on fruit “bearer plants” will follow this standard, which must be measured at their fair value minus sales costs, recording the changes in valuation under results as the product grows.

The minimum amount of said fair value is the cost incurred in during the season in course. Additionally, said fair value would include the margin expected for the fruit that is closest to the harvest, based on the maturity curve of the fruit. Regardless, when the estimation of said margin per subsidiary does not significantly differ from the cost incurred as of the date of the Financial Statements, this value is not recorded.

The variables used to calculate fair value are the following:

- **Volume:** Corresponds to the fruit which at the closing of the financial statements is estimated to be harvested in no more than 80 days in the case of blueberries and cherries, no more than 30 days in the case of raspberries and no more than 50 days in the case of blackberries. This estimation of harvest volumes is performed by expert agronomists, who based on the phenological state of the fruit hanging on the “bearer plants”, of the variety and geographic location of the plantations, perform a projection of the volume of fruit that will be harvested during the next weeks.
- **Producer return:** From the weekly historical average sale price in the final market (taking as a reference the prices published by USDA - United States Department of Agriculture, for the last 3 seasons), we determine the return that the field will receive, based on the date when the fruit is expected to be sold which, to the closing of each financial statement, is hanging from the “bearer plants”, deducting all the costs that must be incurred from the harvest to the arrival to the final customer.
- **Production Cost:** is determined through the accumulation of real costs for each productive hectare, considering all the maintenance tasks and depreciation of fixed assets used at each of the plantations until the moment of the evaluation.

3.5 Intangible assets other than goodwill

a) Varietals Licenses

The acquired varietals licenses are shown at purchase cost and are amortized charged to the cost of sale as income from sales is generated, or by the plant’s development cost.

Corresponds to the rights acquired for the production and commercialization of varieties of Berries.

b) Atlantic Blue blueberries and cherries genetics programs

The used focus was the “Relief From Royalty” method and its fair value of blueberries and cherries genetic programs was estimated at US\$25.98 million.

c) IT programs

Correspond to licenses for acquired software, which are capitalized over the base of the costs incurred in to acquire and prepare them for use. These costs are amortized during their useful lives estimated at 6 years.

Expenses related with the development or maintenance of software are recognized as expenses when they arise. Costs directly related with the production of unique and identifiable software controlled by Hortifrut S.A. and subsidiaries, and which will probably generate superior economic benefits than their costs for over a year, are recognized as intangible assets. Direct costs include expenses corresponding to the personnel that develop the software and any kind of expense incurred in for its development or maintenance.

d) Water rights

Water rights which have an indefinite useful life, since as per all the considered factors, there is no time limit when the asset generates net cash flows for the Company. It is recorded at the cost incurred in its acquisition.

e) Relationship with Customers

Intangibles generated in the acquisition of Vitalberry Marketing SpA due to the latter's relationship with customers, transferred as part of the merger process. The estimation of returns demanded from this company, considered a customer "outflow" rate of an annual 10%, establishing an amortization period for this intangible of 15 years, which is recorded in the consolidated income statement, under the item of administration expenses.

f) Vitalberry Brand

Due to the market participation in the different continents where Vitalberry sold its products, at the moment of its acquisition, it was considered that this brand has a value. The used focus was the "Relief from Royalty" method based on the assumption that the owner of the intangible asset saves the payment of Royalty for the use of said asset.

g) Rocio Berries and Berry Touch Brands

Due to the market participation in the different continents where Atlantic Blue sold its products, at the moment of purchase, it was considered that these brands had a value. The used focus was the "Relief from Royalty" method, based on the assumption that the owner of the intangible asset saves the payment of Royalty for the use of said asset, the fair value was estimated at US\$2.3 million.

3.6. Goodwill

Goodwill arises from the acquisition of subsidiaries and represents the excess of the considerations transferred over Hortifrut S.A. and subsidiaries' interests in the net fair value of the identifiable net assets, liabilities and contingent liabilities of the acquired and the fair value of the non-dominating interest in the acquired.

In order to perform the tests for loss due to impairment, the goodwill acquired in a business combination is assigned to each one of the cash generating units, or Groups of cash generating units, that are expected to benefit from the synergies of the combination. Each unit or Group of units which are assigned the goodwill represent the lowest level within the entity where goodwill is controlled for internal management purposes.

Revisions of the loss due to impairment of the value of the goodwill are performed annually or more often if events or changes in circumstances indicate a potential loss due to impairment. The book value of goodwill is compared with the recoverable amount, which is the used value or the fair value minus sales costs, the highest of these values. Any loss due to impairment is immediately recognized as an expense and is not subsequently reverted.

3.7 Interest Costs

Interest costs which can be directly attributed to the construction of any qualifying asset are capitalized during the period of time that is needed to complete and prepare the asset for the intended use. Other interest costs are recorded under profit or loss.

3.8 Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to amortization and are subjected on a yearly basis to impairment tests.

Assets subject to depreciation are subjected to impairment tests as long as some event or change in the circumstances of the business indicates that the book value of the assets may not be recoverable. A loss due to impairment is recognized when the book value is higher than its recoverable value.

The recoverable value of an asset is the highest between the fair value of an asset minus sales cost and its value in use. In order to evaluate the loss due to impairment of value, assets are grouped at the lowest level for which cash flows that can be separately identified (CGU, cash generating unit) exist.

Non-financial assets other than Goodwill which have suffered a loss due to impairment are subjected to revision on each closing date of the financial statement of position to verify if reversals of the loss have been produced.

Loss due to impairment in value can be reversed in accounting only up to the amount of the loss recognized in previous periods, so that the book value of these assets does not surpass the value that they would have had if said adjustments had not taken place. This reversal is recorded in the Other profit (loss) account.

3.9. Financial Assets

Hortifrut and its subsidiaries initially recognize financial assets and liabilities, when they become part of the contractual dispositions of the instrument, in other words, when the contractual conditions between Hortifrut and its counterpart are met so that the rights and obligations between both begin.

3.9.1. Classification of financial assets

Hortifrut classifies its financial assets based on the business model and the characteristics of the contractual cash flows.

The business model refers to the way in which groups of financial assets are managed to obtain a concrete business objective. Management will evaluate the business model and its considerations, each time that a relevant change in said model is perceived. Nevertheless, said revision will take place every 3 years at the most. The evaluation of the business model considers checking the objectives defined for the portfolio, how performance will be evaluated, what the risks are and how they will be managed, how management will be informed, among others.

As per the definition of the business model established by IFRS9, Hortifrut's Management can manage its financial assets with a final objective of cash flow obtention at the end of the contractual terms; sale of its financial assets or a combination of both strategies. Regarding contractual cash flows, it will be evaluated if these are only payments of the principal and interests based on the contractual terms of the instrument. This includes evaluating if a financial asset contains a contractual condition that could change the calendar or amount of the contractual cash flows so that it won't comply with this condition.

Below, based on the business model defined by Hortifrut's Administration, we detail the classification, initial and subsequent valuation of the financial instruments, and how profit or loss originated by these are recognized:

Assets that make up this category	Financial Instrument	Business Model / Condition	Classification	Initial Valuation (first recording)	Subsequent Valuation	Profit and Loss
<ul style="list-style-type: none"> - Accounts receivable with related entities - Accounts receivable third parties - Cash and cash equivalents 	Financial Assets	The objective of the business model is to maintain the financial asset to obtain contractual cash flows and, based on the conditions of the contract, to receive cash flows on specific dates, only corresponding to payments of the principal plus interests over the principal.	At amortized cost	<p>Trade debtors without significant financing components are valued at the price of the transaction.</p> <p>The rest of the assets are measured at fair value plus transaction costs directly attributable to their acquisition or issuance.</p>	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by loss due to impairment.	Interest income, profit and loss due to foreign currency exchange rate fluctuations and impairment are recognized in results.
<ul style="list-style-type: none"> - Term deposits - Mutual Funds 	Financial Assets	The objective of the business model is to maintain the financial asset to obtain contractual cash flows or to sell and, based on the conditions of the contract, to receive cash flows on specific dates, only corresponding to payments of the principal plus interests over the principal.	At fair value with changes in income	Fair value plus transaction costs directly attributable to its acquisition or issuance.	Fair Value	Income from interest calculated under the effective interest method, profits and loss due to foreign currency exchange rate fluctuations and impairments are recognized in results.
<ul style="list-style-type: none"> - Swap rate - Forward currency 	Financial Assets	Assets under scenarios different to the two aforementioned.	At fair value with changes in other comprehensive income (equity)	Fair Value	Fair Value	<p>Net profit and loss, once recognized, including any income from interests or dividends, are recognized in results.</p> <p>Other profit and loss are recognized in other comprehensive income. At the moment of cancelled accounts, profit and loss accumulated in other comprehensive income will be reclassified in results.</p>

Hortifrut and its subsidiaries do not reclassify financial assets after their initial recognition unless Management changes its business model to administer the financial assets, in which case, all the affected financial assets will be re-classified on the first day of the first period of presentation of the consolidated financial statements, after the changes in the business model.

In the initial recognition of an equity investment which is not kept for negotiation, Hortifrut and subsidiaries can perform an irrevocable election at the moment of the initial recognition of presenting the subsequent changes in fair value in other comprehensive income. This choice is made individually for each investment.

In the initial recognition, Hortifrut and subsidiaries can irrevocably designate a financial asset which somehow complies with the requirement of being measured at amortized cost or at fair value with changes in other comprehensive income such as at fair value with changes in result, if doing so significantly eliminates or reduces an inconsistency of measurement or recognition which would arise in another case.

3.9.2 Accounts receivable

Trade debtors and other accounts receivable are mostly generated by transactions of fresh fruit sales and others, mainly performed in the international market. The initial measurement of these assets is recorded as per the amount of the invoices or sale documents and are subsequently measured at amortized cost. Accounts receivables are originated from sales transactions where control of the sold products is transferred, as per sales conditions and considering the recording of income as per what is defined in note 3.20. In the case of non-invoiced sales transactions, accounts receivable is presented determined as per the market sale prices at destination once the operation has been liquidated, updated and defined as per the sale document.

The Company's customers are geographically diversified in the markets of North America, Europe, Asia, and some countries in South America, with the large retail chains being the main fruit purchasers. The grouping of accounts receivable is realized by the fresh fruit segments and others. Factoring, securitization or renegotiating of customer accounts receivable operations are not presented.

Cash flow recoveries associated to accounts receivable are determined by the nature of Hortifrut's operations, the destination of the deliveries and the operational cycle, generating liquidity in the short term. An important part of sales operations is realized in the United States market, which presents a regulation that encourages the protection of fruit sellers and cash flow recovery.

The Company records impairment provisions over its trade debtors and other accounts receivable, based on the requirements of IFRS 9. Based on the aforementioned, the Company estimates the expected credit loss, which results in possible events of non-fulfillment during the life of the assets measured at amortized cost.

3.9.3 Credit impairment

Hortifrut has developed a simplified focus for the measuring of its expected credit loss, as stated in IFRS9, considering the validity term of its accounts receivable (life of the asset).

To measure expected credit loss, accounts receivable are grouped by function based on homogenous risk characteristics and are stratified as per past due days. To this grouping, the expected credit loss rates are applied, which consider the historical recoverability behavior of Hortifrut's accounts receivable, also including, when necessary, the particular recognition of prospective macro-economic effects which affect customers' credit worthiness, as is stated in IFRS9, from the initial recognition of accounts receivable.

The impairment loss record of accounts receivable is presented under the item Other expenses, per function in the impairment line of accounts receivable. Subsequent recoveries of previously paid amounts are accredited against the same line.

Expected credit loss model

Hortifrut S.A. estimates the expected credit loss, which results from events of non-fulfillment during the expected life of its accounts receivable measured at amortized cost, as a result of the following three components: exposure to loss, probability of loss and severity of the loss.

The measuring of expected loss considers the results of credit risk management that Hortifrut S.A.'s administration maintains and the risk hedging policies that apply for international sales. In this manner, *default* of an account receivable occurs when the customer, who has taken control of the goods, has not paid within the 180-day maturity for fresh fruit and 365 days for others and there are no applied credit insurances.

- Exposure is made up of balances at each closing of accounts receivable from third parties and related parties.
- The probability of loss is determined using a historic analysis, based on information of 36 months of customer sales and collection.
- Hortifrut considers that loss due to non-fulfillment is 100%, because the cases where real guarantees exist are very specific; in these cases the expected loss is evaluated separately.

A portfolio focus has been considered to determine the estimated Company's uncollectible, being the grouping of fresh fruit and others, what generates a better approximation of the credit risk for Administration. To prepare the model and definition of expected loss rates, the payment profile of customer sales of fresh fruit and others has been evaluated for the last 36 months. Historical loss rates are adjusted to reflect the current and prospective information of macro-economic factors that affect the capacity of customers to liquidate accounts receivable. Hortifrut constantly evaluates these indicators, adjusting the historic loss rates based on the significant changes expected in these factors.

The probability of loss due to days of default of accounts receivable, is as follows:

Days	To date	1-30 days	31-60 days	61-90 days	91-120 days	121-150 days	151-180 days	181-210 days	211-250 days	251-365 days	Over 1 year
Fresh Fruit	1.05%	1.16%	2.91%	7.16%	14.73%	32.33%	58.38%	100.00%	100.00%	100.00%	100.00%
Others	1.43%	1.46%	1.68%	1.95%	2.73%	2.95%	3.28%	3.44%	3.46%	66.50%	100.00%

The Company has established to check the model and calculation every 3 years, regardless that it is checked beforehand, due to events that could alter said estimations. Significant macro-economic effects that could affect the credit worthiness of the Company's customers are regularly evaluated by Hortifrut S.A.'s administration with the objective of opportunely incorporating incremental effects in the expected credit loss.

When determining the credit risk of a financial asset, Hortifrut S.A. and subsidiaries consider the reasonable and sustainable information that is relevant and available without undue costs or efforts.

Historical renegotiations and those currently valid are not very relevant and the policy is to analyze them case by case to classify them as per the existence of risk, determining if their reclassification to prejudicial collection accounts corresponds. If this re-classification corresponds, the provision of what is past due and current is constituted.

Accounts receivable write-offs

Hortifrut S.A. writes off accounts receivable when there are no reasonable expectations to totally or partially recover a financial asset or when all the prejudicial or judicial collection instances have been realized. Additionally, the legal dispositions of each country are considered to realize the write-off of accounts receivable. When this happens, we proceed to write-off the assets against the constituted estimation of uncollectible.

Cancelling of accounts

Hortifrut and subsidiaries cancel or stop recognizing a financial asset in accounts, when the contractual rights over cash flows of the financial asset expire, or when the rights to receive contractual cash flows in a transaction are transferred, where all the rights and benefits of the property of the financial asset are substantially transferred, or the risks and benefits related with the property are not transferred or substantially retained and control is not kept over the transferred assets.

Hortifrut and subsidiaries cancel or stop recognizing a financial liability in accounts when its contractual obligations are paid or cancelled. Hortifrut and subsidiaries also cancel a financial liability in accounts when its conditions are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability is recognized based on the new conditions at fair value.

At the moment of the cancelling of a financial liability in accounts, the difference between the book value of the extinct financial liability and the paid consideration (including the assets that are not effectively transferred or the assumed liabilities) are recognized in results.

Offsetting

A financial asset and liability will be the objective of offsetting, so that its net amount is presented in the statement of financial position, when and only when the Group has, at the current moment, the right, legally demandable, to offset the recognized amounts and has the intention to liquidate by the net amount, or to realize the asset and simultaneously liquidate the liability.

3.10 Derivative financial instruments and hedging activities

Derivatives are initially recognized at fair value on the date that the derivatives contract has taken place and they are subsequently valued again at their fair value. The method to recognize the resulting loss or profit depends on if the derivative has been designated as a hedging instrument and, if so, on the nature of the item that is being hedged. The Company designates certain derivatives such as:

- (a) Fair value hedging of recognized assets or liabilities (fair value hedging);
- (b) Hedging of a concrete risk associated to a recognized liability or a highly probable foreseen transaction (cash flow hedging); or
- (c) Derivatives that do not qualify for hedge accounting

The Company records at the start of the transaction the existing relationship between hedging instruments and the hedged items, as well as their objectives for risk management and the strategy to perform different hedging operations. The Company also records its evaluation, both at the start and over a continuous base, to see if the derivatives that are used in the hedging transactions are highly effective to offset the changes in fair value or in the cash flows of the hedged items.

The total fair value of the derivatives is classified as Other non-current financial assets or liabilities if the remaining maturity of the hedged item is over 12 months and as Other current financial assets or liabilities if the remaining maturity of the hedged item is less than 12 months.

The accounting treatment of derivatives as per their classification is as follows:

(a) Fair value hedges

Changes in the fair value of derivatives that are designated and rated as fair value hedge are recorded in the consolidated income statement, together with any change in the fair value of the hedged asset or liability which can be attributed to the hedged risk.

(b) Cash flow hedges

The effective part of changes in the fair value of the derivatives that are designated and classified as cash flow hedges are recognized as cash flow hedges reserves under net equity. Profit or loss related with the non-effective part is immediately recognized in the consolidated income statement, under “Other profit (loss)”.

In the case of variable interest rate hedging, the amounts recognized under equity are reclassified to results in the financial expenses line as the interests of the associated debts are accrued.

In the case of exchange rate hedging associated to costs and expenses to be incurred in Chilean pesos and associated to income to be received in Euros, the amounts recognized in equity are reclassified to profit or loss in the cost of sales item as the corresponding costs and expenses are accrued.

When a hedging instrument matures or is sold or no longer complies with the requirements demanded for hedge accounting, any profit or loss accumulated in net equity up to that moment remains under equity and is recognized when the foreseen hedged transaction is finally recognized in the consolidated income statement. When it is expected that the foreseen transaction will not take place, the profit or loss accumulated in net equity will immediately be taken to the consolidated income statement under “Other profit (loss)”.

3.11 Inventories

Stocks are valued at their acquisition cost or at their net realizable value, the lower of the two. Cost is determined by the weighted average cost (WAC) method.

The cost of the finished products and the products in process include raw materials, direct labor force, other direct costs and general manufacturing expenses (based on a normal operating capacity).

Net realizable value is the estimated sale price during the regular course of business, minus the variable costs of applicable sales.

Obsolete or slow-moving materials and supplies are recognized at their net realization value.

The Company values its inventory as per the following:

- a) The production cost of the finished products covers costs directly related with the productive units, such as labor costs, variable and fixed costs which have been incurred to transform raw materials into finished products.
- b) In the case of the cost of acquired stock, the acquisition cost covers the purchase cost, custom duties, transport, storage and others attributable to the acquisition of goods and materials.

Formula to calculate the cost of inventory

Finished product inventory is valued using the weighted average cost method, which is, the cost of each product unit is determined from the weighted average of the cost recorded at the start of the period and the cost of the articles purchased or produced during the period.

Inventory of raw materials, packing and materials are valued at weighted average cost.

3.12 Trade debtors and other accounts receivable

Trade debtors and other accounts receivable are initially presented at fair value and then at amortized cost.

The Company records provisions for non-collectability over its trade debtors and other accounts receivable, based on the requirements of IFRS 9. Based on the aforementioned, the Company estimates the expected credit loss, which result from possible events of non-compliance during the life of its assets measured at amortized cost. The details of the model are described in Note 3.9.3.

3.13 Cash and cash equivalents

Hortifrut S.A. and subsidiaries consider as cash and cash equivalents the cash balances held at hand and in current bank accounts, term deposits and other financial investments (negotiable securities of easy liquidation) with a maturity of less than 90 days and which are subject to a not very significant risk of changes in value. Investments that correspond to cash management and whose funds are of free disposal are also included.

Used bank overdraft lines are included in Other financial liabilities.

3.14 Corporate capital

Corporate capital is represented by ordinary shares of a single class.

Incremental costs which can be directly attributed to the issuance of new shares or options are presented in net equity as a deduction, of the obtained income.

The minimum legal dividends over ordinary shares are recognized as a reduction of equity when they are approved by the Shareholders' Meeting.

3.15 Payable trade accounts and other accounts payable

Book values recognized within payable trade accounts are initially recognized at their fair value and are subsequently valued at the amortized cost using the effective interest rate method.

3.16 Other financial liabilities

Financial liabilities are initially recognized, by their fair value, net of costs incurred in the transaction. Subsequently, they are valued at their amortized cost and any difference between the obtained funds (net of the necessary costs for its obtention) and the reimbursement value, are recognized in the income statement during the life of the debt as per the effective interest rate method. The effective interest rate method consists on applying the market rate as a reference for debts with similar characteristics to the value of the debt (net of the necessary costs for its obtention).

Financial liabilities are classified under current liability and non-current liability over the base of the contractual maturity of the nominal capital.

3.17 Gains tax and deferred taxes

Hortifrut and subsidiaries have recognized their tax rights and obligations based on the valid legal dispositions.

Income tax expense is recognized in the income statement and corresponds to payable tax determined over the taxable income of the year, applying the valid tax rates as of the closing date of the consolidated financial statements, including any adjustment to payable tax for previous years and the effect of the variation of assets and liabilities due to deferred taxes.

When dealing with items recognized in other integral results or directly in net equity, in this case, tax is also recognized in the other integral results or directly in net equity, respectively.

Deferred tax effects are recorded over the temporary differences that arise between the tax base of assets and liabilities and their corresponding values shown in the financial statements. Deferred tax assets and liabilities are determined using the tax rates that have been promulgated as of the date of the financial statements and are expected to be applicable when the income tax asset is realized or the income tax liability is paid.

Regardless of the aforementioned, deferred tax which is the result of temporary differences that arise from investments in subsidiaries and associated companies is not recognized when the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not be reverted in the foreseeable future.

3.18 Employee Benefits

a) Employee vacations

Hortifrut and its subsidiaries recognize the expense for employee vacations through the accrued method, which is recorded at its nominal value.

b) Benefits for termination of labor relationship

Hortifrut and its subsidiaries do not present obligations due to indemnity for termination of employee services, because there is no legal obligation associated or a non-formalized practice which results in said obligation.

These are recorded in profit or loss (expense) at the moment the employees are paid, as a consequence of the Company's decision to rescind their work contract, before the normal retirement age.

c) Other benefits

Hortifrut and its subsidiaries recognize a liability for bonus to its employees, when it is contractually obligated or when the practice in the past has created an implicit obligation, which is historically defined at the end of the season. If it exists, the provision is presented under current liability.

3.19 Other provisions

Hortifrut and subsidiaries recognize a provision when they are contractually obligated or when there is a practice in the past which has created an assumed obligation.

Provisions for onerous contracts, lawsuits and other contingencies are recognized when:

- i. Hortifrut S.A. and subsidiaries has a current obligation, whether it is legal or implicit, as a result of past events,

- ii. It is probable that an exit of resources will be necessary to liquidate the obligation; and
- iii. The value has been estimated in a reliable form.

Provisions are regularly revised and quantified, taking into consideration the best information available on the presentation date of the consolidated financial statements.

3.20. Revenue Recognition

The Company recognizes revenue from the main sources:

- a) Sale of fresh fruit
- b) Sale of frozen fruit.
- c) Sale of bearer plants.

Revenue is recognized when the customer obtains control of the goods and a significant reversal will probably not take place in the amount of recognized accumulated revenue. As a result, in those contracts where the Group cannot perform a reasonable estimation of the return, it is expected that revenue be recognized as soon as the collection of the consideration and its corresponding payment is highly probable.

All the facts and circumstances that are relevant when applying each step of the model established by IFRS 15 to contracts with customers are analyzed and taken into account:

- i. Identifying of the contract,
- ii. Identifying performance obligations,
- iii. Determining price of the transaction,
- iv. Assigning price, and
- v. Recognizing income.

The following specific criteria for recognizing must also be fulfilled before recognizing revenue:

- a) Sale of fresh fruit – Revenue from the sale of fresh fruit is recognized when a customer obtains control of the goods, which usually occurs at the moment the goods are dispatched or upon the sale to the destination customer. The identified performance obligation is related with the delivery of fresh fruit from the Hortifrut group to the customer, who can be national or foreigner, there are no variable considerations included in the price, such as discounts applied for customers, rebates or other elements that affect the price of the sold products. Even though the contract establishes payment for the services provided by the commercial platforms, these costs are discounted in the value of the liquidation of each sale. The contract establishes a variable sale price which basically depends on the spot price of Berries. Finally, the contract establishes that control of the sold products be transferred once the products are transferred to the final customer, date that coincides with the invoicing of the products.
- b) Sale of frozen products – The Hortifrut group maintains sale contracts with retail chains to whom fresh and frozen Berries are sold. Sales of this type are realized mainly in the United States, Europe and Asia. In this aspect, supermarket chains realize charges for the concept of discounts applied to the final consumer, promotions performed by the chain, services for the replacement of products at sales stores, among others. The fulfilment of the performance obligation is realized at the moment when products are delivered to the customer at the contractually established place, which generally corresponds to the chain's distribution center, when the Hortifrut group delivers the frozen fruit, at

the place agreed with the customer or at the moment of the transfer of the risk depending on the incoterm used when dispatching the products.

- c) Sale of bearer plants – Sales revenue is recognized when a producer receives the plants. This income is included under the “Fresh Fruit” segment.
- d) Revenue from the providing of services – Operating revenue from the sale of services, is recorded when said service has been provided. A service is considered to have been provided when it is received in acceptance by the customer.
- e) Revenue from dividends – Revenue from dividends is recognized when the right to receive the payment is established.
- f) Revenue from interests – Revenue from interests is recognized at market value, if it corresponds, and accrued monthly. For example, Mutual Funds are recorded at unit value, Term deposits, at nominal value.

3.21 Trade agreements with distributors and supermarket chains

The Company performs trade agreements with its main distributors and supermarkets through which they establish: (i) discounts for volume and other customer variables: (ii) promotional discounts, which correspond to an additional reduction in the price of the sold products, due to the development of trade initiatives (temporary promotions) and the granting of considerations (use of preferential spaces and others) and (iii) shared advertising, which corresponds to the Company’s participation in advertising campaigns, promotional magazines and the opening up of new sales points.

Discounts due to volume and promotional discounts are recognized as a reduction in the sale price of the sold products. The contributions for shared advertising are recognized when the advertising campaigns agreed with the distributor have taken place and are recorded as incurred commercializing expenses.

The Company recognizes the cost of the benefits granted by commercial agreements with distributors only when there is formal evidence of the agreement, the amount of the benefit can be reasonably estimated and its payment is probable.

Commitments with distributors or importers in the export environment are recognized when there is formal evidence of the agreement and its amount can be reliably estimated.

3.22 Cost of Sales

Sales costs include the cost of production of the sold products and other costs incurred in to leave inventory at the locations and under the necessary conditions for its sale. These costs include, among others, cost of raw materials, packing costs, labor costs of production personnel, depreciation of assets related with production, payment of leaves of absence and operating costs, maintenance of plants and equipment.

Estimating Cost of Sales

Sales from the production of third-party fruit (producers), which to the closing of the period have not yet been liquidated (approximately between 20 and 45 days as per destination) the premium over the contractual price previously agreed with the producer is estimated. The estimated premium plus the agreed price constitutes the cost of fruit. The premium is estimated taking as a reference the real placement prices experienced at the destination market as of the closing date of the consolidated financial statements.

3.23 Administrative expenses

Administrative expenses include remunerations and compensation of personnel at the back up units, the depreciation of offices, equipment, installations and furniture used in these functions, the amortization of non-current assets and other general and administrative expenses.

3.24 Lease

a) Financial Lease

Hortifrut S.A. and its subsidiaries lease determined fixed assets. The fixed asset lease, when the Company substantially has all the risks and rewards inherent to the property, is classified as financial lease. Financial lease is capitalized at the start of the lease at the fair value of the property and/or leased asset or at the current value of the minimum payments for the lease, the lower of the two.

Each lease payment is distributed between the liability and the financial burdens to obtain a constant interest rate over the pending balance of the debt. The corresponding obligations for lease, net of financial burdens, are included in Other financial liabilities. The interest element of the financial cost is charged in the income statement during the lease period in order to obtain a constant periodic interest rate over the remaining balance of the liability for each period. The asset acquired under a financial lease regime is depreciated during its useful life or the duration of the contract, the lower of the two.

b) Operating Lease

Hortifrut S.A. and its subsidiaries lease certain fixed assets, the lease where the lessor conserves an important part of the risks and advantages derived from the ownership of the good is classified as operating lease. The nature of expenses related with this lease has changed from January 01, 2019, with the application of IFRS 16, the Group recognizes a charge for asset depreciation due to the right to use and interest expense over lease liabilities.

Estimated economic useful life or depreciation rate

Useful life is defined by the duration of the corresponding contracts, the depreciation of right of use is recognized monthly, said depreciation is calculated lineally during the term of the lease.

For this type of assets, the company does not maintain a residual value.

The group has applied IFRS 16, taking into account the following considerations:

I. Identification of lease - Definition

At the start of a contract, Hortifrut determines if a contract is, or contains, a lease.

To determine if a contract transmits the right to control the use of an identified asset, Hortifrut evaluates if:

- The contract involves the use of an identified asset;
- It has the right to substantially obtain all the economic benefits derived from the use of the asset during the period of use; and
- It has the right to direct the use of the asset

This policy is applied to the executed or modified contracts, from January 01, 2019.

Hortifrut will once again evaluate if a contract is, or has, a lease only if the terms and conditions of the contract change.

II. Exemptions of recognition

Hortifrut applies the exemptions to the recognition of leases established in IFRS 16, in the following cases:

- In short term lease, for contracts with terms of less than a year, except when there is the intention to renew in subsequent periods.
- In underlying asset leases of a low value, calculated over the base of the individual value of the assets when they are new, for amounts lower than ThUS\$10.

III. As Lessee

Hortifrut recognizes assets for the right of use and liabilities for lease at the start of the lease contract, associated companies, mainly, lease contracts and usufruct of the land, which do not comply with the recognition exemptions.

a) Lessee accounting model – assets for right of use (ROU):

ROU assets are initially recognized at cost, which includes:

- The amount of the initial measurement of the liability for lease, adjusted.
- The asset for right of use is subsequently measured at cost minus accumulated depreciation and the loss due to impairment determined under IAS 36, adjusted by the new measurements of the lease liability.
- In this sense, the depreciation term is defined by Hortifrut from the starting date to the end of the useful life of the asset with the right of use or until the end of the lease term, whichever is first. In the case of lease with contract renewable for a year, for example in the case of offices, these are depreciated based on history.

b) Lessee accounting model – lease liability:

On the starting date, Hortifrut will measure the liability for lease at the current value of the lease payments that have not been paid on that date. Hortifrut will discount the lease payments using the interest rate implicit in the lease, if that rate can be easily determined, if not, Hortifrut's incremental loan rate must be used, as per the business, currency and valid term segment of the contracts.

Lease liability is subsequently measured:

- Increasing the book value to reflect the interest over the lease liability;
- Reducing the book value to reflect the realized lease payments; and
- Once again measuring the book value to reflect the new lease measurements or modifications due to changes in the terms, fixed payments, residual value guarantees, etc.

Lease payments, lease payments included within the liability are the following:

- Fixed payments in local currency;
- Variable lease payments, which depend on an index such as the consumer price index (UF)

Term of lease, the criteria applied by Hortifrut to define the lease term, are the following:

- For contracts without renewal clause, the termination date of the contract is considered.
- For contracts with renewal clause, the term is advised by the operating area as per the business plan.

Hortifrut will evaluate in the new lease contracts all the renewal considerations, anticipated termination, investment and business plan to establish the term of each contract.

If a change in the lease term is produced or if there is a change in the evaluation of an option to purchase the underlying asset, Hortifrut will once again measure the lease liability discounting the remaining lease payments using a modified discount rate, namely, determining a new rate as of the date of the modification. If there are changes in future payments, the remaining payments will be discounted with the initial discount rate, unless the change in lease payments proceeds from a change in variable interest rates. In this case, Hortifrut will use a modified discount rate which reflects the changes in the interest rate.

IV. Consolidation

At a consolidation level, all the transactions related with leases between companies will be eliminated, so the lease contracts over goods owned by the parent company given in lease to the subsidiaries and the sub-lease over said properties will be left without effect in the consolidation. In the case of sub-lease given by the parent company to its subsidiaries over goods owned by third parties, in the consolidated financial statements, the items associated to sub-lease must be eliminated, but the parent company will present the ROU assets and lease liabilities derived from the main lease contract.

V. Presentation of the lessee

Hortifrut will present in the statement of financial position or in the notes:

- Assets for right of use separate from other assets.
- Lease liabilities separate from the other liabilities.

VI. Revelations of the lessee

Hortifrut will reveal information regarding its leases, where it acts as a lessee, in a section of the financial statements.

VII. Classification of the lessor

Hortifrut as a lessor, will classify each one of its leases as an operating lease or a financial lease.

Revenue from operating lease is recognized in a lineal manner during the term of the lease.

3.25 Non-current assets or groups of assets (or disposal groups) classified as held for sale

Non-current assets or disposal groups are classified as assets held for sale and are recognized at the lower value between the book value and the fair value minus sales cost. When the value will be recovered mainly through its sale, as long as the sale is considered highly probable.

3.26 Environment

In the case of environmental liabilities, these are recorded based on the current interpretation of environmental laws and rulings, when it is probable that a current obligation will be produced and the amount of said responsibility can be calculated in a reliable manner.

Investments in infrastructure works destined to complying with environmental requirements are activated by following general accounting criteria for Property, plant and equipment.

3.27 Research and development

Research and development expenses are presented under the “Other expenses, by function” item in the consolidated income statement, because the realized investigation forms a normal part of Hortifrut S.A. and its subsidiaries’ operations.

3.28 Advertising expenses

Advertising expenses are recognized under results when they take place.

3.29 Earnings per share

Net profits per share are calculated by dividing the net profit attributable to the shareholders by the weighted average of the number of ordinary shares in circulation during the period, excluding shares acquired by the company.

3.30 Insurance expenses

The payment of different insurance policies which the Company hires is recognized under expenses in proportion to the period of time that they cover, regardless of the payment terms. The paid and non-consumed values are recognized as prepaid payments under current assets.

The costs of the claims are recognized under results immediately once known, net of the amounts recoverable from the insurance companies. The amounts to be recovered are recorded as an asset to be reimbursed by the insurance company under the item Trade Debtors and other accounts receivable, calculated according to what was established in the insurance policies.

NOTE 4- RISK MANAGEMENT

The Company's business intrinsically involves a series of risk factors which, in one way or another, could affect the development of the business. Within these factors, we can mention the following:

4.1. Financial Risks

4.1.1 Credit Risk

Credit risk is the risk of financial loss which Hortifrut and its subsidiaries face if a customer or a counterpart in a financial instrument does not comply with its contractual obligations and is mainly originated from customer accounts receivable.

a) Cash surplus investment risk:

The financial institutions with whom Hortifrut S.A. and subsidiaries operate and the type of financial products where they materialize said cash surplus investments, are considered low risk for the Company (see Note 7.1).

The Company's policy regulates investment and debt, trying to limit the impact of the exchange rate fluctuations in the valuation of currencies and interest rates over the Company's net results, through cash surplus investments and the hiring of forwards and other instruments in order to maintain a balanced rate and exchange rate position.

Within the authorized instruments, are those whose maturity terms do not exceed 90 days and have high liquidity.

- Cash at hand
- Term deposits
- Investments in mutual funds
- Other short term and high liquidity investments.

The financial entities where the investments are placed have a high creditworthiness.

b) Risk from sales operations

Hortifrut S.A. has fresh fruit sales and others, diversified in several countries, with an important presence in the North American, European and Asian markets.

The accounts receivable portfolio is mainly made up of large retail chains, and the main customers are supermarkets in the United States, where the fresh fruit business is subject to PACA law, which protects fresh fruit and vegetable suppliers in the USA.

To mitigate the risks of international fresh fruit sales and considering the behavior of commercial relationships with customers, Hortifrut S.A. can use other credit management instruments as advanced payments, guarantees or letter of credit obtained on behalf of customers to assure the delivery of products to the different destinations where the fruit is commercialized. Commercial reality indicates that these mechanisms are specifically used for sales to some markets and that the Company mostly realizes credit management with control over fruit deliveries to overseas, considering that the non-payment behavior of customers results in the immediate suspension of new overseas deliveries.

Regardless of the fact that to date Hortifrut has not had any significant problems in relation to credit risk, it is important to bear in mind that this fact does not guarantee that in the future, the Company may be exposed to this risk.

As a mitigation measure for this risk, the Company has obtained credit insurance for the parent company and subsidiaries (See Note 4.3). These insurances operate considering the past due accounts of customers and allow to mitigate the probability of the Company's un-collectability loss, reducing the determined impact, applying the credit loss model defined in note 3.9.3.

The maximum exposure to credit risk is presented in the tables of Note 10 Trade debtors and other accounts receivable.

4.1.2 Liquidity risk and Financing

This risk is associated to the probability that Hortifrut S.A. and its subsidiaries cannot comply with their obligations, as a result of insufficient liquidity or the impossibility to obtain credits.

Furthermore, there is the risk that, due to an impairment in its operations or other circumstances, certain financial ratios could reach levels that are higher than the limits established in the credit contract, which could limit the debt capacity or accelerate the maturity of the Company's valid financial liabilities.

To mitigate this risk the Company continuously monitors its financial ratios and other obligations and restrictions stipulated in its credit contracts, in order to be able to take opportune actions to avoid the potential negative effects associated to this risk.

Regardless of the fact that to date Hortifrut has not had any problems associated to exceeding the financial ratios stipulated in financial contracts, it is important to bear in mind that this fact does not guarantee that in the future Hortifrut may be exposed to this risk.

The Hortifrut Group centrally administers these risks from the parent company through an appropriate distribution, extension of terms and by limiting the amount of its debt, as well as the maintenance of an adequate liquidity reserve, constantly monitoring the debt of the Subsidiaries and Associated Companies. Specifically in the case of subsidiaries such as Honghe Jiayu Agriculture Limited and associated companies such as Munger Hortifrut N.A. LLC in the United States, credit decisions are made at these business units in coordination with Hortifrut S.A. Debts are incurred through bank credits in Chile and overseas, aiming to optimize the credit conditions based on financing needs to face investment plans and requirements for working capital.

The application of IFRS16, involves an increase in the Company's financial liabilities by recognizing the lease obligation. The Company, considering financial safeguards, has agreed with the corresponding financial institutions to not include lease obligations in the related calculation formulas.

Regardless of the fact that to date Hortifrut has not had any problems in relation to liquidity risk, it is important to bear in mind that this fact does not guarantee that in the future, Hortifrut may be exposed to this risk.

Hortifrut has available short-term credit lines, approved and valid for work capital, which as of June 30, 2022, reach the amount of US\$249.26 million (US\$277.68 million as of December 31, 2021) distributed among 17 banks. The used amount reaches US\$109.35 million, with an available balance of US\$139.91 million. Credit lines are distributed among the following companies: Hortifrut Chile S.A. with US\$233.00 million, Agrícola El Pampino S.A. with US\$0.75 million, Agrícola El Avellano S.A. with US\$0.50 million, Agrícola Santa Rosa del Parque S.A. with US\$1.00 million, Agrícola Mataquito S.A. with US\$1.70 million, Agrícola Vida Nueva S.A. with US\$0.40 million, Euroberry Marketing S.A. with US\$6.91 million and Hortifrut Import Inc., with US\$5.00 million.

Based on the current operational performance and its liquidity position, the Company estimates that cash flows from operating activities and available cash will be enough to finance working capital and interest payments, for the next 12 months and the foreseeable future.

To administer short term liquidity, the Company uses as a base its cash flows forecasted for a mobile period of twelve months and maintains cash and cash equivalents which are available to comply with its future obligations.

Below we summarize the maturity of the Company's Bank loans and financial leasing as of June 30, 2022:

	Cash Flows						
	Capital	Interests	From 0 to 3 months	Between 3 and 12 months	Between 1 and 5 years	Over 5 years	Total
	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Creditor Bank

4.1.3 Exchange Rate Risk

The international character of its business and operations in different countries expose Hortifrut to risks due to exchange rate fluctuations. The main exposures refer to exchange rate fluctuations of US Dollar versus Chilean Peso, Mexican Peso, Peruvian Nuevo Sol and Euro.

a) Exposure to Chilean Pesos

The source of exposure to Chilean Pesos comes from the costs of Chilean companies denominated in this currency, trade accounts receivable with national customers and liquid funds held in financial instruments and bank obligations.

Hortifrut performs actions to mitigate the exposure to costs of the Chilean companies by contracting derivative instruments. Likewise, in the Chilean companies, Cross Currency Swap instruments are used to mitigate the exchange rate risk in bank obligations in Chilean Pesos.

b) Exposure to Mexican Pesos

The source of exposure to Mexican Pesos mainly comes from agricultural operating costs in Mexico, which are mostly denominated in said currency and, at a lower scale, trade accounts receivable with Mexican customers.

Hortifrut performs mitigation measures over the exposure to costs of Mexican companies, through the contracting of derivative instruments.

c) Exposure to Euros

The source of exposure to Euros comes from sales performed in said currency, agricultural operating costs in Continental Europe, bank obligations and liquid funds held in financial instruments. Hortifrut constantly evaluates the need to perform actions to mitigate this risk.

d) Exposure to Peruvian Soles

The source of exposure to Peruvian Soles mainly comes from the costs of agricultural operations in Peru, which are mainly denominated in said currency, and at a lower measure, from trade accounts receivable with customers. Hortifrut constantly evaluates the need to perform actions to mitigate this risk.

e) Exposure to Moroccan Dirham

The source of exposure to Moroccan Dirham mainly comes from the costs of the agricultural operation in Morocco, which are mostly denominated in said currency and, in lower measure, in liquid funds held in financial instruments. Hortifrut constantly evaluates the need to realize actions to mitigate this risk.

Regardless of the fact that to date Hortifrut has not had any problems in relation to exchange rate risk, it is important to bear in mind that this fact does not guarantee that in the future, Hortifrut may be exposed to this risk.

Exposure in currencies different to the functional currency

The following table shows the exposure in currencies different to the dollar, over the Company's financial assets and liabilities as of June 30, 2022, and December 31, 2021:

As of June 30, 2022	<u>Chilean</u>			<u>Mexican</u>			<u>Others</u>

Sensitivity Analysis

The potential net effect on financial assets and liabilities of a 10% devaluation of the United States dollar against all the other relevant currencies to which the Company is exposed, would be approximately ThUS\$23,289 (ThUS\$28,701 as of December 31, 2021), the aforementioned maintaining all the other variables constant. The calculation considers the Company's exposure in financial assets and liabilities denominated in currency different to the dollar.

<u>Currencies</u>	<u>Assets</u> ThUS\$	<u>Liabilities</u> ThUS\$	<u>Net</u> ThUS\$	<u>Net (10%</u>	<u>Variation</u> ThUS\$

4.1.4 Interest Rate Risk

The Hortifrut Group has its long-term financial liabilities linked to long term investments.

Long term liabilities are at fixed and variable rates and mostly in United States dollars to avoid cost variations and to be aligned with the Company's functional currency. Even though short-term financial liabilities, linked to temporary working capital are at a fixed rate, an exposure to fluctuations in the market rates at the moment of its contracting and/or renewal is experienced.

As of June 30, 2022, the debt at variable rate that Hortifrut had was ThUS\$469,624 (ThUS\$527,526 as of December 31, 2021), if this debt level is maintained for a one-year term and the rate increased 10% today, the impact of the annual financial cost would be ThUS\$1.096 (ThUS\$1,047 as of December 31, 2021).

4.2. Operating Risks

Risk management forms part of Hortifrut's normal activities, from an analysis that considers the Company's internal and external context, interaction with interest groups, analysis of operations and their continuity, to identify and mitigate the most relevant and significant risks.

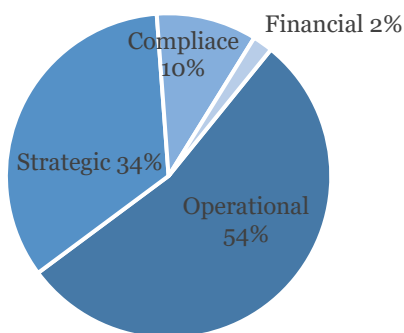

At Hortifrut there is a quarterly follow-up of the action plans associated to all the risks and a monthly follow-up of action plans associated to critical risks, which are reported with the same regularity to the Board.

Hortifrut's Risk Matrix contains the risks that are faced, classified in 4 large groups: Strategic, Financial, Operating and Compliance. Also, each risk is classified as per its impact in case it is materialized and the probability of occurrence, implemented controls and action plans in process for its mitigation are identified.

As per the aforementioned, as of June 30, 2022, risks identified by Hortifrut are distributed in the following manner:

	Operational	Strategic	Compliance	Financial
Type of risk	54%	34%	10%	2%

RISK TYPE

	Critical	Tolerable	Acceptable
Risk severity	17%	67%	16%

RISK SEVERITY

The main risks faced as of June 30, 2022, were:

RISK	TYPE	DESCRIPTION	CONTROLS AND MITIGATION
Country Risk	Strategic	<p>Financial, political, cultural or other macro-economic events that originate in the different countries where Hortifrut has subsidiaries, which could negatively impact the fulfillment of the business plan (e.g. decrease in investment, contraction of demand and unemployment, among others).</p> <p>Also changes in labor and tax legislation that affect the criteria considered when it was decided to invest in another country.</p>	<p>When Hortifrut enters a new country, it looks for local strategic partners to minimize introduction and adapting costs to local idiosyncrasies. During the process to search for local partners, a detailed investigation takes place, using market references, professional advisory and local lawyers. Once it has established in the country, an exhaustive work is done with the Human Resources area to integrate the new partners into the Company and permanently monitor, in a centralized manner, the performance of each of the overseas operations.</p> <p>Also, it counts with a geographic diversification of operations, but with a certain agricultural concentration in Peru, which it aims to reduce by focusing on the future growth in the genetics, distribution and sales business, and outside Latin America.</p>
Organizational Structure	Strategic	With the growth expected at Hortifrut, there is the risk of not being able to count with the adequate structure or people for the Company's development.	Hortifrut is constantly revising its organization structure and the development of human capital to count with the adequate resources to sustain its growth together with the normal operation of its established subsidiaries.
Pollination problems	Operational	Bees are affected by climate change, since the climate cannot be controlled, or can be affected by fertilizers.	Quality standards are established for beehives with the suppliers that provide the pollination service. The beehives are constantly checked at the fields and the number of bees per row is monitored.
Political Risk due to Russian war in Ukraine	Operational	The Russian war in Ukraine has increased the price of supplies such as petroleum, which affects transport, packing materials, as well as fertilizers.	Hortifrut has increased the stock of the most relevant supplies to assure operational continuance.
Food Safety	Compliance	Non-compliance of MRL (Maximum Residue Limit) of pesticides and/or use of non-allowed products.	Hortifrut counts with varied mitigation measures such as: (1) analysis of pesticides before beginning the commercial harvest, as per program at the start of the campaign; subsequently, a routine fortnightly analysis takes place to evaluate subsequent applications; (2) the Food Safety web platform available for customers is used, which includes a record of the valid certifications and results of the analysis of several producers; (3) count with a restriction software, which allows to block producers in case of any non-compliance; (4) count with a Product Approval Corporate Protocol as per sanitary programs previously approved by the Food Safety area in relation with the corresponding record and other requirements; (5) before beginning the season, producers are given a list of phytosanitary products

			that are allowed for the destination countries and authorized at origin for their use, with the dose, objective plague, application method, and safety and harvest intervals.
Plagues or disease of the harvests	Operational	High cost or hard to control plagues or disease within the harvests, which could alter the development of the offered products, shorten the productive life and/or affect the quality and quantity of the harvested fruit.	<p>All of Hortifrut's subsidiaries count with plague and disease monitoring systems to be able to detect and attend to the phytosanitary problems when they arise or when favorable conditions are present for their development.</p> <p>We count with phytosanitary programs developed for each field/harvest, based on the requirements, always aligned with the food safety compliance required by customers. These phytosanitary programs are approved by the Sanitation area and, also, count with the approval of the phytopathology and entomology advisors. With this, the sanitation of harvests is assured without having residuality and Food Safety problems.</p> <p>On the other hand, we count with a Global Sanitation Committee, which meets weekly and gathers all those responsible for sanitation at each operation and the global sanitation advisors; this Committee serves as a guide for the making of phytosanitary decisions and to share the experiences and practices that have worked at the different subsidiaries.</p> <p>Additionally, the Company performs quality control during the whole process, from the receipt of the fruit at the stockpiles to the receipt on behalf of the client at destination. Our operating standards are oriented to maintaining optimum quality during the whole export process and stock control is applied at destination to assure that the rotation of fruit allows to maintain the demanded quality. Last of all, there are salvaging programs at destination which allow to reduce the risk of arriving with deficient quality to the final customer in case some of the previous controls fail.</p>
Plant supply	Strategic	Depend on few plant/plug suppliers to cater for Hortifrut's growth plan	Hortifrut realizes a detailed planning to assure the plants/plugs necessary for the growth plan.

Origin-destination logistics chain	Operational	Maritime/land logistics problems at a global level, which impacts the transfer of fruit from the country of origin to the destination markets.	<p>Specifically, during the 2020/21 and 2021/22 seasons there have been problems in the shipping services to the United States and Asia because of the COVID-19 pandemic.</p> <p>To mitigate said risk, Hortifrut executes a diversification strategy in the transit services (by supplier and destination market) to arrive with the fruit to the market in the lowest time possible, considering contingency.</p>
Operational Continuance	Strategic	The blueberries industry in Chile is facing several risks: climate change, old varieties, locations that causes loss of competitiveness in front of other countries.	Hortifrut is working in the varietal turnover to assure that the fruit is of better quality to reach destination markets.
Lack of Manpower	Operational	Lack of harvesters at fields and temporary personnel that work at packings.	<p>At Hortifrut there is the Temporary Human Resources Regional Management, which is in charge of hiring temporary personnel in Peru, Chile and Mexico.</p> <p>Strong communication campaigns take place to encourage the enrollment and hiring of said personnel and there is a digital inscription file to follow-up the candidates. Furthermore, we participate in work fairs in different areas and perform active recruitment in the communities near the operations.</p> <p>An incentives program was also implemented for the already hired personnel, in order to reduce rotation during the campaign.</p>
Sell fruit below the quality standard agreed with customers	Compliance	Non-compliance of the quality standard agreed with the customer, as per the market or defined strategy.	Corporate Quality Management directly depends on Corporate General Management, thus reinforcing independence to make decisions in terms of quality. Count with quality corporate reports for the different subsidiaries, which are permanently monitored. In this report immediate tracing can take place of the evaluations of the inspected lots from origin to destination and vice versa, as well as the evolution of quality by producer, farm and variety.
Loss of competitiveness	Strategic	Loss of competitiveness in relevant markets as a result of more competitive actors, new products or genetic development of these, which could impede the increase in market interest expected by the Company.	<p>In Blueberries, Raspberries and Blackberries, Hortifrut works to permanently produce state of the art genetics, focusing on quality, productivity, post-harvest life and market acceptance, among other factors, for fruit from all origins.</p> <p>On the other hand, geographic diversification and of different Berries species, with the objective of supplying customers the whole year with the complete Berries category is boosted.</p>

			<p>High levels of agricultural and operational costs efficiency are maintained. Debt ratios are monitored on a monthly basis to assure competitiveness in financing.</p> <p>We are constantly looking for good new customers, as well as developing new market segments (e.g.: online sales and value-added products).</p>
Climate change, natural disasters, accidents or pandemics	Operational	<p>Natural disasters (e.g.: earthquakes and flash floods), unfavorable climate conditions (e.g.: strong gales) or unexpected events (e.g.: fires, floods or attacks) that damage the plantations and/or installations, affecting production.</p> <p>With the purchase of Rocio Group's blueberries business in Peru, the Company's plantations in said country reached 42.2% of the total as of December 31, 2021.</p>	<p>The Company has plantations and operations at various geographic locations, that allow it to partially mitigate this risk.</p> <p>The various subsidiaries have developed different mitigation plans to overcome this risk. For example, in Peru firefighting systems and fire walls have been installed at the packings, dividing the processing room, the finished product chamber and security doors to isolate the storage of materials. There are also protection works for the water courses and the critical points are reinforced to protect plantations from the El Nino phenomenon.</p> <p>In Chile, Hortifrut has invested in frost control, shade mesh, hail protection and protection tunnels in case of climate factors. The climate threat and natural disaster areas are constantly evaluated, to propose preventive measures that grant production protection.</p> <p>In Mexico, a business insurance policy has been contracted to assure the assets at fields, except plantations. To mitigate climate contingencies, different implementations have been realized, for example, drains, mesh and purchase of electrical power plant, among others.</p>
Water supply	Operational	<p>To not count with the water necessary to water the plantations, due to droughts and/or underground aquifers that could dry up.</p>	<p>The different subsidiaries develop their strategy to follow up this risk and implement mitigation measures. For example, plantations in Peru count with reservoirs in different areas, which allow to assure water for an average 25 days, with a reserve of 2.5 million m3. In Mexico, reservoirs have also been built at the various fields. In Chile, dams are maintained to store water, which allows to irrigate for a reasonable time, and water is purchased from neighboring owners that count with duly accredited shares.</p> <p>Furthermore, in certain geographic areas, ground plantations are complemented with plantations in pots, which use up approximately 30% less water than ground plantations.</p>

<p>Cyber security attacks</p>	<p>Operational</p>	<p>Affecting technological platforms and/or information networks that back the key processes of the business. Theft or exposure of the company's information or sensitive information.</p>	<p>If corporate platforms are affected due to a cyber security incident, contingency procedures have been defined to back critical processes in a manual manner.</p> <p>Technological Corporate Management performs an annual cyber security revision and activity at a corporate level, which considers Ethical Hacking, Ethical Phishing and finding of critical vulnerable platforms exposed to internet.</p>
-------------------------------	--------------------	--	--

4.1. Insurance

The Hortifrut Group has contracted insurance policies to cover exposure to the main financial and operational risks, considering that the coverage of these policies is adequate.

The main insurances contracted as of June 30, 2022, and December 31, 2021, are the following:

<u>COUNTRY</u>	<u>TYPE OF INSURANCE</u>	<u>CURRENCY</u>	<u>30-Jun-22 COVERED AMOUNT</u>	<u>31-Dec-21 COVERED AMOUNT</u>
Chile	Infrastructure Fire	UF	1,211,265	1,211,265
Chile	Mobile Agricultural Equipment	UF	45,369	42,487
Chile	Motor Vehicles	UF	28,812	27,477
Chile	General and Product Civil Liability	USD	5,000,000	5,000,000
Chile	Maritime Transport	USD	7,000,000	7,000,000
Chile	Credit Insurance	USD	59,000,000	50,000,000

Peru	Fire	PEN	618,320	618,320
Peru	Motor Vehicles	USD	2,136,124	261,820

4.4 Risk of Estimations

Effects of the valuation of fruit that grows on “bearer plants” due to changes in volume and price

As per what is established in IAS 41, agricultural products that grow on fruit bearer plants will remain within the scope of this standard, which must be measured at their fair value minus sale costs, recording the changes in valuation in result as the product grows.

Since this valuation corresponds to an estimation, it could vary when fruit sales are perfected, moment that said result was realized.

As of June 30, 2022, the adjustment to fair value of the Company’s fruit on bearer plants has not been recognized, since there is no relevant difference between the book value of the biological asset and its fair value (as of June 30, 2021, the expected margin was recognized for ThUS\$837, which is presented in results under the item Other income per function).

The estimation of this same concept recorded as of December 31, 2021, was for the value of ThUS\$3,044, which is presented under Other income per function.

Below we detail the effect that a 10% decrease in price and volume would have on said margin as of June 30, 2021:

Company	Fair value adjustment as of 30-06-2021 (ThUS\$)	10% Reduction Volume (ThUS\$)	10% Reduction Price (ThUS\$)	10% Reduction Volume and Price (ThUS\$)
Hortifrut Perú S.A.C.	837	753	159	134
Total	837	753	159	134

As of June 30, 2021, the other agricultural societies did not present relevant amounts for this calculation, being outside the adjustment as per what is established in Hortifrut's policy (See note 3.4).

4.5. Risk associated to Merger and Purchase process

Due to the global character of its business and the Company's intention to remain among the main global participants in the production and commercialization of berries and other fruits, Hortifrut has materialized different purchase and/or merger processes in the past and could materialize other similar transactions in the future. Both the Company and the acquired companies or assets are exposed to potential financial, operational and other previously described risks.

To mitigate these risks, the Company continuously monitors the potential effects that merger and/or acquisition processes could have on its financial ratios, both at results and balance level, in order to be able to take opportune actions to remain within the thresholds permitted by the financing contracts.

Regardless of the fact that to date Hortifrut has not had any problems in relation to its merger and purchase processes, it is important to bear in mind that this fact does not guarantee that in the future, Hortifrut may be exposed to this risk.

NOTE 5 – CHANGES IN ACCOUNTING POLICIES

During the period ending June 30, 2022, no changes in the Company's accounting policies have been realized.

NOTE 6 – OPERATING SEGMENTS

The Company reports financial information per segments as per what is established in IFRS 8 “Operating Segments”. Said norm establishes standards for the reporting of information per segments in the financial statements, as well as revelations regarding products and services, geographical areas and main customers. An operating segment is defined as a component of an entity over which separate financial information is obtained, which is regularly evaluated by upper management to make decisions regarding the assigning of resources and the evaluation of results.

The performance of the segments is evaluated via the Operating Result (excluding impairment in Property, plant and equipment), by sales volume and income, as per the following formula:

Calculating Operating Margin:

+ Operating revenue
+ Other revenue, per function
= Total revenue

Minus:

- Sales cost
- Administrative expenses
- Other expenses, per function, excluding the impairment of value in Property, plant and equipment
= Total costs

The Group divides the financial information per business unit, identifying the following segments:

- a) “Fresh Fruit” Added Segment
 - a. Blueberries
 - b. Raspberries
 - c. Blackberries
 - d. Strawberries
 - e. Cherries

- b) “Value Added Products” Segment

6.1. Results per segments

Sales per Geographic Location

The information of net sales per geographic location is based on the destination continent where our products are consumed (North America – South America - Europe - Asia).

For the quarter-year and half-year periods ending June 30, 2022, and 2021, operating income per geographic location is as follows:

Sales per geographic destination	30-Jun-2022		30-Jun-21	
	ThUS\$	%	ThUS\$	%
North America	218,560	47.96%	174,685	43.68%
Europe	119,066	26.13%	85,091	21.28%
South America	43,929	9.64%	75,645	18.91%
Asia and others	74,178	16.27%	64,517	16.13%
Total Revenue	455,733	100.00%	399,938	100.00%

Sales per geographic destination	Second quarter of 2022		Second quarter of 2021	
	ThUS\$	%	ThUS\$	%
North America	60,204	36.52%	52,290	34.39%
Europe	60,240	36.54%	38,967	25.63%
South America	10,650	6.46%	37,255	24.50%
Asia and others	33,762	20.49%	23,527	15.48%
Total Revenue	164,856	100.01%	152,039	100.00%

As of June 30, 2022, there are no customers that surpass a 10% participation in net sales.

Non-current assets per geographic location

For the periods ending June 30, 2022, and the period ending December 31, 2021, non-current assets, susceptible to classification per geographic area are the following:

Non-Current assets per geographic area	North				TOTAL
	America	Europe	South America	Asia and others

North America

In North America, through its subsidiary Hortifrut Imports Inc., the Company is associated with three of the largest berries producers: Michigan Blueberry Growers Association, Naturipe Berry Growers and Munger Brothers, to together commercialize under the brand Naturipe, during the 52 weeks of the year.

Through Hortifrut Imports Inc., it supplies a wide mix of conventional and organic berries to all of the United States and Canada during the whole year.

Commercializing is mainly performed through the Retail and Foodservice channels, reaching the main supermarkets in the country. Naturipe Farms is recognized as one of the main berries' brands in the United States and is present in one of the main fruit categories and with greater growth.

Europe

Hortifrut, through its Euroberry platform, has continued to grow together with the market, incorporating during 2020 the supply of Raspberries in an important manner thanks to its participation in B-Fruit in Portugal. It must be stated that, in a certain measure, this is due to our new Raspberry variety called Pacific Centennial, which has been a success at a European consumer level.

During 2021, Hortifrut finalized the purchase of 100% of the Atlantic Blue European company, producer, processor and trader of Blueberries and other Berries, mainly from Spain and Morocco, which opens up the Company to enormous and new growth and investment opportunities in Europe and provides a solid base to satisfy the growing demand of European customers and consumers for the best berries during the whole year.

Last of all, the consolidation of Hortiblue Logistics, Euroberry's logistics center in Netherlands, allowed to provide a customized packing service for all the customers that require it, thus elevating the service and preference levels of these for Hortifrut's conventional and organic Berries. To this operation we add, from the purchase of Atlantic Blue, a new logistic center in Spain, SAT Hortifrut, which allows to complement the services that Hortifrut grants its producers and customers in this continent.

Latin America

Hortifrut is present in Latin America with commercial offices to attend to and develop the internal markets of Brazil, Chile, Peru and Colombia.

In the Colombian market, in our second year of operation, we were consolidated as a relevant actor in the internal market, attending to the main supermarket chains in the country. At our export platform, from where Hortifrut starts to perform its first deliveries to Europe from this country, we have incorporated new export destinations in Central America, such as Costa Rica, and from where we expect to continue developing other destinations in the region.

Also, in 2021 HF Latam consolidated its own e-commerce channel in three countries (Chile, www.berryhouse.cl / Brazil, www.berryhouse.com.br / Peru, www.berryhouse.com.pe) and forecasts the launching of on-line sales for at least two more subsidiaries in the region for 2022. In this manner, Hortifrut is not only providing a new sales channel for its consumers, direct from the field to their home with a fresher product, but it advances in a transformation process to become a multichannel platform.

HF Latam's objective is to maintain sustained growth, producing and commercializing the best Berries in the market, every day of the year. For this it attends to its retail customers (such as Cencosud, Tottus, Walmart and Grupo Éxito, among other large regional retailers) and customers such as restaurants, hotels and local shops, traditional channels that, by including its own e-commerce channel and presence in the main marketplaces, optimizes the experience of customers and consumers, regardless of the channel of their preference, thus guaranteeing their satisfaction as per their needs.

As an integrated company from genetics to the final customer, HF Latam counts with agricultural business and the obtaining of fruit from third party producers in the four countries where it is present, with production of Blueberries, Strawberries, Blackberries and Raspberries, maintaining the highest quality and food safety standards, and following the most demanding international regulations.

Asia

In Asia, Middle East and new markets with recent access to phytosanitary protocols, such as India and Israel, Hortifrut reached a relevant market participation due to the work of a specialized commercial team, which aims to supply the best customers from different origins, thus covering the demand of these Oriental countries.

In China, since 2020, the Company has managed to supply Blueberries to millions of customers nearly the whole year, both with local production and with imported fruit. Local production comes from Hortifrut's own genetics which have been planted in its fields in the Province of Yunnan, operation that covers the early window that goes from December to June, while fruit exported from Peru and Chile covers the wide period that goes from July to February of each season.

In addition to China, Hortifrut strengthens its growth in other Asian markets such as South Korea, Taiwan, Japan and Hong Kong, where the Company's customers are attended to under the brands Naturipe®, Berry Collection and Southern Sun. At the same time, progress has been made in the development of business in South East Asia, Middle East and Israel.

As a complement to the Blueberries offer within the Asian market, the Company continues to consolidate its production and commercializing of Cherries, a very desired product within China and the rest of the Asian markets. Thereby Hortifrut has been able to supply all its Asian customers with high quality Cherries, participating in the commercial programs of the most demanding customers in China, such as Costco and Aldi. With these good results, the Company expects to continue consolidating this product as one of the main pillars of its commercial platform in Asia, increasing its market participation and being a leader in the industry as it is in Berries.

NOTE 7 – FINANCIAL INSTRUMENTS**7.1. FINANCIAL INSTRUMENTS PER CATEGORY**

Total	1,073,553	-	14,491	1,088,044

7.2. CREDITWORTHINESS OF FINANCIAL ASSETS

Within the financial assets that the Company has, these can be mainly classified into two large groups i) Commercial Credits with Customers, which to measure their risk level are classified according by the age of the debt and provisions are made for bad debt, and ii) Financial investments performed by the Company in accordance with the criteria indicated in Note 4.1.1:

Current Assets	30-Jun-22 ThUS\$	31-Dec-21 ThUS\$
Mutual Funds and term deposits AA+fm/M1 classification	3,663	25,696
Current Bank Accounts AAA	<u>60,134</u>	<u>79,005</u>
Sub-total Cash and Cash Equivalents	<u>63,797</u>	<u>104,701</u>
Swap rate operations	3,916	-
Forwards currency operations	93	10
Other Financial Assets	-	7
Total other current financial assets	<u>4,009</u>	<u>17</u>
Trade debtors and other accounts receivable without credit rating	<u>189,853</u>	<u>141,684</u>
Sub-total current trade debtors and other accounts receivable	<u>189,853</u>	<u>141,684</u>
Total	<u><u>257,659</u></u>	<u><u>246,402</u></u>

None of the financial assets pending maturity have been the object of renegotiation during the period.

There are no significant matured financial assets as of the closing of the period which have not been duly provisioned.

7.3 ESTIMATING FAIR VALUE

Financial assets recorded at fair value in the consolidated statement of financial position, have been measured based on the methods stated in IFRS 13. For the application of criteria when determining the fair value of the financial assets, the following parameters have been considered:

Level I: Values or quotation prices in active markets for identical assets and liabilities.

Level II: Information from sources that differ from the Level I quotation values, but that can be observed in markets for the assets and liabilities, whether it is in a direct manner (prices) or indirect (derived from prices).

Level III: Information for assets or liabilities not based on observable market data.

- If the variables used to measure the fair value of an asset or liability can be classified in different levels of the fair value hierarchy, then the measurement of fair value is classified in its totality at the same level of fair value hierarchy as the lowest level which is significant for the total measurement.
- The Company recognizes the transfer between the levels of hierarchy of fair value at the end of the period which is being informed when the change occurred.

These estimations have been made based on the best information available on the date of issuance of the current consolidated financial statements, but it is possible that events that could take place in the future

could force these to be modified in future periods, which would be done in a prospective manner, recognizing the effects of change in estimation in the corresponding future consolidated financial statements.

The following table presents the financial assets and liabilities that are measured at fair value as of June 30, 2022, and December 31, 2021:

<u>Assets/(Liabilities)</u>	Fair Value 30-Jun-22 ThUS\$	Fair value measurements using values considered as		
		Level I	Level II	Level III
		ThUS\$	ThUS\$	ThUS\$
Assets				
Short term mutual funds	575	575	-	-
Term deposits - current	3,088	-	3,088	-
Cross Currency Swap operations	3,916	-	3,916	-
Forwards currency operations	93	-	93	-
Term deposit - non-current	1	-	1	-
Liabilities				
Forwards currency operations	(5,385)	-	(5,385)	-
Non-current Cross Currency Swap Operations	(1,028)	-	(1,028)	-

<u>Assets/(Liabilities)</u>	Fair Value 31-12-2021 ThUS\$	Fair value measurements using values considered as		
		Level I	Level II	Level III
		ThUS\$	ThUS\$	ThUS\$
Assets				
Short term mutual funds	3,804	3,804	-	-
Term deposits - current	21,892	-	21,892	-
Forward currency operations	10	-	10	-
Other financial assets	7	-	7	-
Non-current forward currency operations	13	-	13	-
Term deposit - non-current	10,043	-	10,043	-

Non-current Cross Currency Swap Operations	(11,901)	-	(11,901)	-

7.4. INFORMATIVE FAIR VALUE OF FINANCIAL INSTRUMENTS

The following table shows fair values, based on financial instrument categories, compared with the current and non-current book value included in the consolidated statements of financial position:

	Notes	30-Jun-22		31-Dec-21	
		Book Value	Fair Value	Book Value	Fair Value
		ThUS\$	ThUS\$	ThUS\$	ThUS\$
Assets					
Cash and cash equivalents	8				
Bank balance		60,134	60,134	79,005	79,005
Term deposit		3,088	3,088	21,892	21,892
Mutual funds		575	575	3,804	3,804
Other current financial assets	9	4,009	4,009	17	17
Current trade debtors and other accounts receivable and non-current fees receivable	10	191,080	191,080	143,236	143,236
Current accounts receivable from related entities	11	41,730	41,730	61,146	61,146
Other non-current financial assets	9	1	1	10,056	10,056
Liabilities					
Other current financial liabilities	23	262,152	262,152	210,786	210,786
Other non-current financial liabilities	23	396,257	396,257	467,040	467,040
Current lease liabilities	24	5,605	5,605	5,774	5,774
Non-current lease liabilities	24	85,560	85,560	81,874	81,874
Current trade accounts and other accounts payable	25	99,488	99,488	160,142	160,142
Other non-current accounts payable	25	131,435	131,435	143,050	143,050
Current accounts payable to related entities	11	6,019	6,019	11,888	11,888
Non-current accounts payable to related entities	11	6,868	6,868	7,490	7,490

The book value of current accounts receivable, cash and cash equivalents, and other financial assets and liabilities is close to the fair value because of the short-term nature of these instruments and for accounts receivable, because any loss due to recoverability is already reflected in the loss due to impairment provisions. The fair value of non-derivative financial assets and liabilities, without quotations on active markets, is estimated via the use of discounted cash flows calculated over market variables that can be observed on the date of the financial statements. The fair value of the derivative instruments is estimated via the future discount cash flows, determined based on information that can be observed in the market or over variables and prices obtained from third parties.

NOTE 8 - CASH AND CASH EQUIVALENTS

Cash and cash equivalents correspond to money balances held in current bank accounts, term deposits and other financial investments with a maturity of less than 90 days, which do not have restrictions of use.

The detail of cash and cash equivalents as of June 30, 2022, and December 31, 2021, is as follows:

Types of Cash and Cash Equivalents	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
Bank balances	60,134	79,005
Term deposits	3,088	21,892
Mutual funds	575	3,804
Total cash and cash equivalents	63,797	104,701

The detail per currency of cash and cash equivalents as of June 30, 2022, and December 31, 2021, is as follows:

Type of currency	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
United States Dollar	25,127	68,742
Euro	19,148	15,441
Peruvian Nuevo Sol	659	850
Chilean Peso	2,655	903
Moroccan Dirham	8,151	4,742
Yuan	5,470	12,242
Brazilian Real	275	583
Mexican Peso	1,631	709
Colombian Peso / others	391	106
Pound	290	383
Total	63,797	104,701

The detail of term deposits per banks as of June 30, 2022, and December 31, 2021, is as follows:

Investments in term deposits	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
Banco Credito e Inversiones	1,027	19,866
Banco Scotiabank	1,000	-
Banco Comercial Português	-	1,201
Fondo Sura del Perú	1,061	825
Total investments in term deposits	3,088	21,892

The detail of mutual funds per banks as of June 30, 2022, and December 31, 2021, is as follows:

Investments in mutual funds	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
Banco Santander	331	-
Banco Itaú Brasil	242	551
BBVA-Banco Continental	2	-
Banco de Chile	-	2,502
Banco Santander	-	584
Banco Credito e Inversiones	-	161
Fondo Sura del Perú	-	6
Total investments in mutual funds	575	3,804

Mutual fund units are fixed income and are recorded at the market value through the unit value at each monthly closing.

Creditworthiness financial institutions

As of June 30, 2022, and December 31, 2021, is as follows:

Creditworthiness financial institutions	30-Jun-22	31-Dec-21	30-Jun-22
	ThUS\$	ThUS\$	Risk Classification
Fondo Sura del Perú	1,061	831	AAf-/C3 (pe)
Banco Credito e Inversiones	1,027	20,027	AAA (cl)
Banco Scotiabank	1,000	-	AAA (cl)
Banco Santander	331	584	AAA (cl)
Banco Itaú Brasil	242	551	AA+ (cl)
BBVA-Banco Continental	2	-	A+ (pe)
Banco de Chile	-	2,502	AAA (cl)
Banco Comercial Português	-	1,201	Baa2 / P-2 (pt)
	3,663	25,696	

NOTE 9 - OTHER CURRENT AND NON-CURRENT FINANCIAL ASSETS

These assets represent the effects of currency forwards instruments used to cover the potential financial risk associated to the volatility of costs and expenses to be incurred in currencies different to the United States dollar in the agriculture and export business (see Note 4.1.3).

The detail of Other financial assets as of June 30, 2022, and December 31, 2021, is as follows:

Current	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
Swap rate operations	3,916	-
Forward currency operations	93	10
Other financial assets	-	7
Total other current financial assets	4,009	17

Non-Current	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
Term deposit Scotiabank Bank	1	10,043
Forward currency operations	-	13
Total other non-current financial assets	1	10,056

As of June 30, 2022, and December 31, 2021, there are no ineffective hedging instruments recognized in the Company's results, which arise from the aforementioned hedging of derivative operations.

- a) The detail of the current and non-current swap operations, held by Hortifrut S.A. and subsidiaries is:

ASSETS

Hedging instruments

Banks	Instruments	Type	Capital	Mark to Market Value	
				30-Jun-22	31-Dec-21

Colombia	85	-	86	34	-	205
Total	73,933	6,048	34,719	32,252	(5,268)	141,684

The concept receivable Others, mainly corresponds to advanced payments to producers (which will be liquidated within the season) and suppliers. As of June 30, 2022, an accounts receivable corresponding to the receivable balance associated to the sale of 75% of HFE Berries Perú S.A.C. which reaches ThUS\$52,757 in total is included in Chile and Spain. The provision corresponds to the impairment of trade debtors and other accounts receivable.

The detail of non-current fees receivable as of June 30, 2022, and December 31, 2021, is as follows:

Non-Current	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
Non-current debtors and accounts receivable	180	799
Other non-current fees receivable	935	667
Recoverable taxes	113	95
Bad debt provision	(1)	(9)
Total non-current fees receivable	1,227	1,552

The detail of recoverable taxes, presented in other current accounts receivable are as follows:

	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
Tax receivable accounts		
Iva (VAT) tax credit	30,234	30,530
Other recoverable taxes	25	1,722
Total	30,259	32,252

The fair value of trade debtors and other accounts receivable does not differ from its book value.

Stratification of the portfolio

The Company does not keep a securitized portfolio as of June 30, 2022, and December 31, 2021. Below is the analysis by age of trade debts and accounts receivable:

Terms	30-Jun-22		31-Dec-21	
	NON SECURITIZED PORTFOLIO		NON SECURITIZED PORTFOLIO	
	Customers non-renegotiated portfolio	Amount non-renegotiated portfolio	Customers non-renegotiated portfolio	Amount non-renegotiated portfolio
	N°	ThUS\$	N°	ThUS\$
Non past due	1,022	76,246	340	65,022
From 1 - 30 days	117	5,998	153	7,227
From 31 - 60 days	64	6,314	50	4,358
From 61 - 90 days	36	4,539	35	1,040
From 91 - 120 days	75	1,387	16	1,295
From 121 - 150 days	57	596	13	110
From 151 - 180 days	35	88	16	201
From 181 - 210 days	40	461	13	22
From 211 - 250 days	20	246	17	122
Over 250 days	121	1,557	91	1,383
Total	1,587	97,432	744	80,780
Provision		(1,808)		(1,776)
Total (net)		95,624		79,004

The stratification of the portfolio include: Sales debtors, Notes receivable, Non-current debtors in the item non-current fees receivable.

The analysis of future maturities (future flows) of trade debtors and other current accounts receivable is as follows:

	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
Terms		
Non past due	18,505	23,078
From 1 - 30 days	37,080	53,485
From 31 - 60 days	53,125	33,508
From 61 - 90 days	8,023	18,429
From 91 - 120 days	1,716	2,579
From 121 - 150 days	6,395	45
From 151 - 180 days	1,073	246

Chilean Peso	13,341	28,083
Mexican Peso	16,931	4,343
Moroccan Dirham	5,097	5,610
Yuan	3,532	6,130
Brazilian Real	950	865
Colombian Peso / others	620	249
Pound	172	396
Total	189,853	141,684

The maximum exposure to credit risk as of the date of presentation of the information is the book value of each of the aforementioned accounts receivable categories.

	As of June 30, 2022			As of December 31, 2021		
	Gross exposure as per balance	Gross impaired exposure	Net exposure concentration of risk	Gross exposure per balance	Gross impaired exposure	Net exposure concentration of risk
	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Trade Debtors	81,884	(1,664)	80,220	73,933	(1,531)	72,402
Notes receivable	15,368	(144)	15,224	6,048	(245)	5,803
Other accounts receivable	67,529	(3,379)	64,150	34,719	(3,492)	31,227
Recoverable Taxes	30,259	-	30,259	32,252	-	32,252
Total	195,040	(5,187)	189,853	146,952	(5,268)	141,684

The amounts corresponding to trade debtors, documents and other impaired accounts receivable, are totally provisioned and are the following:

Provision uncollectables	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
National trade debtors	1,664	1,531
Notes receivable	144	245
Other accounts receivable	3,379	3,492
Total	5,187	5,268

The movement of provision due to loss caused by the impairment of the value of trade debtors and others as of June 30, 2022, and December 31, 2021, is as follows:

Movement	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
As of January 01	5,268	4,188
Purchase Atlantic Blue Group	-	1,796
Provision reversal	(3,382)	(4,195)
Increase provision	3,301	3,479
Total	5,187	5,268

Once all the preliminary and judicial collection efforts have been made, we proceed to write off the assets against the constituted provision.

NOTE 11– BALANCES AND TRANSACTIONS WITH RELATED PARTIES

Related parties include the following entities and individuals:

- a) Shareholders with the possibility to exercise control
- b) Subsidiaries and members of subsidiaries
- c) Parties with an interest in the entity which grants them significant influence over it
- d) Parties with joint control over the entity
- e) Associates
- f) Interests in joint business
- g) Key management personnel, from the entity or its parent company
- h) Relatives close to the individuals described in the previous points
- i) An entity that is controlled or is controlled in a joint manner by any of the individuals described in letters g) and h).

11.1. Accounts receivable from related entities

In general, transactions with related Companies are of immediate payment or charge and are not subject to special conditions. These operations adjust to what is established under title XVI of Law N° 18.046, regarding Closely held Corporations and in Title XV of law N°18.045.

The transfer of short-term funds from and to the parent company or between related Companies, which do not correspond to the charging or payment of fruits and services, are structured under the trade current account modality, establishing an interest rate for the monthly balance, as per market conditions.

Accounts receivable and accounts payable to related entities as of June 30, 2022, and December 31, 2021, are detailed as follows:

Current accounts receivable corresponds to trade operations whose collection period is between 1 and 12 months.

Impairment in accounts with related parties:

The Company has estimated that the risk of non-compliance of Related Parties which consolidate or over which Hortifrut has control or influence in its administration, is intangible, so it has considered an impairment percentage for said accounts equal to zero. In the cases of related parties that do not comply with the aforementioned, the same method is applied as for the other debtors (see Note 3.9.3).

Hortifrut S.A. and subsidiaries, have as their policy to inform the main transactions that are performed with related parties, except for dividends paid by the parent Company and received capital contributions.

11.4 Board Remunerations and fees and Remunerations of Key executives

The allowances, remunerations and ownership interests of the Board members as of June 30, 2022, reach ThUS\$611. For the same period of 2021, the total of allowances, remunerations and ownership interests reached ThUS\$701.

The total gross remuneration received by the main executives at Hortifrut S.A. and subsidiaries reached ThUS\$2,956 as of June 30, 2022 and ThUS\$3,748 as of June 30, 2021. The main executives are those that have authority and the responsibility to plan, direct and control the company's activities, whether it be directly or indirectly, including any member (manager or not) of the administrative council or of a government body, its equivalent in the Company.

NOTA 12 - INVENTORIES

The detail of inventories as of June 30, 2022, and December 31, 2021, is detailed below:

Types of inventory	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
Finished products	19,986	61,675
Raw material	452	3,170
Frozen finished products	69,738	22,476
Materials and supplies	34,822	30,326
Provision for obsolescence	(1,232)	(618)
Total	<u>123,766</u>	<u>117,029</u>

Provision obsolescence	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
As of January 01	618	509
Reversal of provision	(183)	(78)
Increase of provision	797	187
Total	<u>1,232</u>	<u>618</u>

The provision for obsolescence, corresponds to the cost of packing materials that are obsolete or whose use has been discontinued.

Information regarding finished products

The Company has not performed write-offs of finished products as of June 30, 2022, and December 31, 2021.

As of June 30, 2022, and December 31, 2021, no inventory has been pledged as security.

The cost of inventory recognized as cost of sales in the periods ending June 30, 2022, and 2021, reach ThUS\$110,631 and ThUS\$136,516 respectively (see Note 33.1).

In order to mitigate the risk of loss of inventory, the Company maintains insurances as of June 30, 2022 (See Note 4.3).

NOTE 13 – BIOLOGICAL ASSETS, CURRENT

The movements of current biological assets as of June 30, 2022, and December 31, 2021, are the following:

Movement	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
Fruit from bearer plants		
Opening biological assets	40,291	20,037
Biological assets Atlantic Blue Group opening	-	5,375
Increase due to capitalization of costs	45,556	147,115
Increase/(Decrease) due to fair value adjustment (*)	(3,044)	2,395
Consumption	(34,699)	(134,631)
Exchange rate adjustment	(6)	-
Sub Total Fruit from bearer plants	48,098	40,291
Strawberries		
Opening biological assets	218	206
Increase due to capitalization of costs	-	316
Exchange rate adjustment	13	(13)
Consumption	(192)	(291)
Sub Total Strawberries	39	218
Total	48,137	40,509

As described in Note 3.4, the Company performs the valuation of agricultural products that grow on “bearer plants” as of the date of issuance of the financial statements. As of June 30, 2022, no adjustment to the fair value of the Company’s fruit on bearer plants has been recognized, since there are no relevant differences between the book value of the biological asset and its fair value (as of June 30, the expected margin of ThUS\$837 was recognized, which is presented under results in the item Other income per function).

The movement due to increase (decrease) of the adjustment to fair value (*) of the “current biological asset”, corresponds to the difference between the estimation of the margin expected as of June 30, 2022, and the reversal of the estimation recorded as of December 31, 2021, which was of ThUS\$3,044.

The estimation of this same concept recorded as of December 31, 2021, was for the amount of ThUS\$3,044, which was presented in Other income per function. The movement in this item, is presented net of the reversal of this same concept determined as of December 31, 2020, which was ThUS\$649, and is presented as an increase of ThUS\$2,395.

It must be stated that this valuation corresponds to an estimation, which could vary when fruit sales are perfected, moment when said result is realized.

In this item the costs of plants that produce fruit in a single season, such as strawberries, are also included.

NOTE 14 – OTHER NON-FINANCIAL ASSETS

The detail of other current non-financial assets is as follows:

Current	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
Advanced payment of blueberry plants	6,403	9,532
Advanced payments insurance	1,144	1,432
Advanced expenses	6,808	7,062
Payments in guarantee	882	668
Advanced freight payments	455	560
Total	15,692	19,254

The detail of Other non-current non-financial assets is as follows:

Non-Current	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$

Total equity	<u>56,316</u>
Total equity and liabilities	<u>92,726</u>

Dated May 24, 2022, the subsidiaries Hortifrut Inversiones Internacionales S.A. (50.05% direct interest and 49.95% indirect through its subsidiary Hortifrut España Southern Sun, S.L.U.), sold to Sooke Investments Inc. 75% of HFE Berries Perú S.A.C.'s property, as per the following detail:

Detail	Interest	Sale ThUS\$	Cost ThUS\$	Other Income ThUS\$
Sale of shares at Hortifrut Inversiones Internacionales S.A.'s property	50.05%	58,677	28,102	30,575
Sale of shares at Hortifrut España Southern Sun SLU's property	24.95%	29,251	14,123	15,128
Total		<u>87,928</u>	<u>42,225</u>	<u>45,703</u>

The 25% remaining interest that Hortifrut España Southern Sun, S.L.U. has, has been incorporated as an investment in associated company.

The results of the period ending April 30, 2022, and the period ending December 31, 2021, were consolidated line by line because it did not correspond to a discontinued operation. This decision was agreed once Hortifrut purchased the Atlantic Blue Group (December 01, 2021) with which the Director, through reserved acts, instructed Management to manage this sale given the new scenario.

NOTE 16 – INVESTMENTS IN SUBSIDIARIES

The Company has investments in companies that have been recognized as investment in subsidiaries. All of the companies defined as subsidiaries have been consolidated in Hortifrut and subsidiaries' financial statements.

The detail of consolidated subsidiaries as of June 30, 2022, and December 31, 2021, is as follows:

Companies	RUT	Country of Origin	Functional Currency	30-Jun-22			31-Dec-21

The Companies detailed in the first margin, correspond to direct subsidiaries and those in the second margin are the companies where control is maintained indirectly, but that form part of the consolidated financial statements of direct subsidiaries (Note 3.1 point ii).

In the case of those subsidiaries that directly or indirectly maintain an ownership equal to or lower than 50%, these have been included in the consolidation process because the Company has the power to direct the financial and operating policies.

Movements at Subsidiaries

During the period ending June 30, 2022, no new companies have been incorporated to the consolidation of Hortifrut group's financial statement.

Other Changes

Dated May 25, 2022, the sale of 75% of the HFE Berries Perú S.A.C. company was materialized, which was classified as Asset and Liabilities for sale and its results were consolidated until April 30, 2022, line by line, since it corresponds to a discontinued operation. Also, the remaining 25% became part of investments in associated companies.

During the period ending December 31, 2021, companies have been incorporated to the consolidation of Hortifrut group's financial statement.

Hortifrut Ecuador S.A.

Dated July 01, 2021, Hortifrut Inversiones Internacionales S.A., purchased 50.1% of the company Hortifrut Ecuador S.A., corporate capital is US\$200 thousand.

a) Additions

Additions as of June 30, 2022, and December 31, 2021, are shown in the following detail:

Additions	30-Jun-22	31-Dec-21
Company	ThUS\$	ThUS\$
HFE Berries Perú S.A.C.	14,037	-
Hortifrut IG Berries Private Limited	4,923	-
Margesi S.A.	-	678
Total additions	18,960	678

b) New investments and other changes

During the period ending June 30, 2022, the following companies have been incorporated:

In May 2022 Hortifrut S.A. entered Hortifrut IG Berries Private Limited's property, through a capital contribution equal to 50% of the corporate capital of said Company, together with IG International Private Limited (25% interest), Black Mountain Berries Pty Limited (12.5% interest) and Milos Foundation Limited (12.5% interest), in order to expand the production and commercialization of Berries in the local market of India.

In May 2022, the sale of 75% of HFE Berries Peru S.A.C. (company that was classified as assets and liabilities for sale) was materialized and since Management decided to maintain the remaining 25% interest, we have proceeded to record this company as an associated company.

During the period ending December 31, 2021, no new companies have been incorporated, nevertheless, as per the Company's investment plan, capital contributions were realized in the Margesi company in Argentina.

Other changes

During the period ending June 30, 2022, no other changes have taken place in the interest of associates.

During the period ending December 31, 2021, the following other changes have taken place:

As of December 01, 2021, 74.5% was purchased from the Hortifrut Berries Marroc S.R.L. company in the sale-purchase framework of Atlantic Blue Group. Within the same agreement, 81.5% was purchased from the S.A.T. Hortifrut H-0030 de R.L. company, with these consolidating from said date.

During the 2021 period, the Horto Frutas Portugal Uniperssoal LDA. company purchased an additional 25% of the HF Natur LDA company, reaching a 75% interest, thus taking control of said company and

incorporating it into Hortifrut's consolidation scope.

Hortifrut Expofresh S.A., as of December 31, 2021, is in the formalization stage of the legal term.

c) Summarized financial information

Summarized financial information as of the period ending June 30, 2022, and the period ending December 31, 2021, which is presented below, corresponds to the total assets, liabilities and equity and a summary of the results of associated companies as of June 30, 2022, and 2021.

NOTE 18 – INTANGIBLE ASSETS OTHER THAN GOODWILL

The detail of the main types of intangible assets is shown as follows:

		30-Jun-22	31-Dec-21
	Useful Life	ThUS\$	ThUS\$
Varietal License	Finite	29,193	3,375
VBM Brand	Indefinite	3,304	977
Water Rights	Indefinite	561	574
Relationship with Customers	Finite	2,332	2,596
IT programs	Finite	1,691	1,857
Total		<u>37,081</u>	<u>9,379</u>

a) Varietal licenses and genetics programs

The acquired varietal licenses are shown at cost of acquisition and are amortized charged to the cost of sale in the measure in which the sales income is generated or by the plant's development cost.

Genetics programs of Atlantic Blue blueberries and cherries

As per IFRS 3 standard, it is established that, from the date of the purchase, the purchaser must recognize separate from goodwill, the acquired identifiable assets, the assumed liabilities and any non-controlling interest of the acquired. The used focus was the "Relief From Royalty" method and the fair value of the genetics programs of blueberries and cherries was estimated at US\$25.98 million.

The movement of varietal licenses as of June 30, 2022, and December 31, 2021, are shown in the following detail:

	30-Jun-22	31-Dec-21
Movement	ThUS\$	ThUS\$
Opening balance as of January 01	3,375	2,058
Purchase of Atlantic Blue group	25,981	695
Investments	-	1,647
Amortization / consumption	(106)	(1,026)
Exchange rate fluctuation	(57)	1
Closing balance	<u>29,193</u>	<u>3,375</u>

b) Software

The acquired software is recorded over the acquisition cost base minus accumulated amortization. These assets are amortized during their useful life, estimated at 6 years by the lineal method.

The movement of software for the periods ending June 30, 2022 and December 31, 2021, are shown in the following detail:

Movement	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
Opening balance as of January 01	1,857	1,240
Purchase of Atlantic Blue group	-	436
Investments	136	582
Amortization	(280)	(336)
Exchange rate fluctuation	(22)	(65)
Closing balance	1,691	1,857

The amortization of intangible assets is recorded in the consolidated income statement, under the item Cost of sales and Administration expenses, whichever corresponds.

Management has not observed signs of impairment in relation to intangible assets.

There are no intangible assets in use which are totally amortized.

c) Other intangibles

The identified intangible assets are detailed as follows:

	Useful Life	30-Jun-22	31-Dec-21
		ThUS\$	ThUS\$
VBM and AB Brand	Indefinite	3,304	977
Water Rights	Indefinite	561	574
Relationship with Customers	Finite	2,332	2,596
Total		6,197	4,147

Movement	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
Opening balance as of January 01	4,147	4,556
Purchase Atlantic Blue group	2,327	21
Investments	-	108
Amortization	(238)	(390)
Exchange rate fluctuation	(39)	(148)
Closing balance	6,197	4,147

Water rights have an indefinite useful life, since in accordance with the considered factors, there is not a time limit where the asset generates net cash flows for the Company, these are recorded at cost incurred in its purchase.

In accordance with IFRS 3 standard, it is established that, from the date of acquisition, the purchaser must recognize, separate from goodwill, the identifiable assets acquired, the assumed liabilities and any non-parent company interest of the acquired.

- In 2013 in the acquisition of VitalBerry Marketing, intangibles denominated Relationship with Customers and VitalBerry Marketing Brand were generated (See Note 3.5 letter f).
- In 2021 with the purchase of Atlantic Blue Group, intangibles were generated associated to the “Rocio Berries” and “Berry Touch” brands. (See Note 3.5 letter g).

As of June 30, 2022, and December 31, 2021, Management has not observed signs of impairment in relation to intangible assets denominated water rights, relationship with customers and brands.

d) Intangibles subject to guarantees or restrictions

There are no intangible assets over which there is a restriction in its titles, nor have partial or total guarantees been constituted over them, as of June 30, 2022, and December 31, 2021.

e) Impairment of Intangibles with indefinite useful life

The Company determines annually if the intangible assets with an indefinite useful life are impaired. This test requires an estimation of 'value in use' of the cash generating units to which Intangibles with an indefinite useful life are associated. The estimation of the value in use requires that Management performs an estimation of the future cash flows of the cash generating unit (or group of CGU's), and that it also defines an appropriate discount rate to calculate the current value of those cash flows.

Management has not observed signs of impairment in relation to intangibles with an indefinite useful life.

NOTE 19 - GOODWILL

Goodwill represents the surplus of the acquisition cost over the fair value of the Company's interests in the net identifiable assets of the subsidiary or related company on the date of acquisition.

The balance of goodwill compared as of the closing of each period is as follows:

Investor	Issuer	30-Jun-22	31-Dec-21
		ThUS\$	ThUS\$
Hortifrut S.A.	Agrícola El Avellano S.A.	344	344
Hortifrut S.A. de C.V.	Hortifrut ABA S.A. de C.V.	342	342
Hortifrut S.A.	VitalBerry Marketing SPA	26,083	26,083
Hortifrut Inversiones Internacionales S.A. Talsa Chile II SpA		153,001	153,001
Hortifrut Inversiones Internacionales S.A. Atlantic Blue S.L.U. (*)		86,430	144,682
	Total	266,200	324,452

(*) Business combination and assignment of paid price.

The Company determines annually if Goodwill and intangible assets with an indefinite useful life are impaired. This test requires an estimation of 'value in use' of the cash generating units to which Goodwill and Intangibles with an indefinite useful life are associated. The estimation of the value in use requires Management to perform an estimation of the future cash flows of the cash generating unit (or group of CGU's), and that it also defines an appropriate discount rate to calculate the current value of those cash flows.

The Company performed the impairment test over goodwill as of December 31, 2021, as per what is established by the accounting policies (see Note 3.6). The CGU associated to this goodwill corresponds to the Fresh Fruit segment. The main parameters used to evaluate impairment are:

- Volumes, sale prices and gross margin associated to said sales.
- Administration expenses and sales based on future expected growth.
- Investments in Property, plant and equipment to bear future growth.
- Need for working capital associated to the growth in sales.
- Discount rate applied to future cash flows, equal to a real 5.42% as of December 31, 2021.

Management has not observed signs of impairment in relation to goodwill.

Business combination due to the purchase of Atlantic Blue Group

Dated September 30, 2021, Hortifrut Inversiones Internacionales S.A. (hereinafter "HII"), subscribed a binding offer to purchase 100% of Atlantic Blue Group's (hereinafter "AB") share capital, for the total value of US\$292 million (Euros 258 million), this operation was finalized dated December 01, 2021.

Below is the percentage of subsidiaries purchased in the transaction:

	Purchased portion	Paid price Euros
Business combination:		
Atlantic Blue, S.L.U.	100%	
Atlantic Green, S.L.	100%	
Royal Berries, S.L.U. (genetica)	100%	
Atlantic Blue Berries Maroc, S.A.R.L.	100%	
		192,417,429
Business combination per stages:		
SAT Hortifrut H-0030 de R.L.	81.50%	
Hortifrut Berries Maroc S.R.L.+ Hortiblue	74.50%	
Other companies:		
Hortifrut España Southern Sun, S.L.U.	50%	
Euroberry Marketing S.A.	50%	65,947,162
HFE Berries Perú S.A.C.	50%	

The transferred consideration due to the equity of the companies that comply with the business combination is 192.4 million Euros (US\$218.6 million).

Companies where Hortifrut already has common control are included under the concept of other companies.

The sale-purchase of the blueberries and Berries genetics business of Atlantic Blue Group is described below with the steps of the transaction:

1. HII purchased 50% of HFE Berries Perú S.A.C. (hereinafter “HFE” or “Olmos”) from AB and Hortifrut España Southern Sun, S.L.U. (hereinafter “HESS”),
2. HESS realized a reduction in capital by amortizing 50% of the participation that AB had. After this operation, “HII” remained with a 100% participation over “HESS”.
3. AB distributed dividends to its partners, Hayler Berry and Patrimonial Arandalus. In virtue of this dividend distribution, the carve-out of the three rustic farms was realized (El Rompido, La Salvadora and Santa Rita-Reigal) which passed on to be owned by the sellers and the Right to Credit generated in favor of AB because of the HESS capital reduction (previously described) was distributed.
4. HII purchased 100% of AB’s corporate capital (after the sale of 50% of Olmos and after having reduced the part of HFE’s capital that corresponds to the sellers through AB). HII became the direct titleholder of 100% of AB’s participations in virtue of the sale-purchase contract.
5. Purchase of minority interests
 - Atlantic Green S.L.: HII purchased the 24% interest, one part paid in cash and the other part to be paid in 8 yearly installments.
 - Atlantic Blue Berries Maroc S.A.R.L.: HII purchased a 25% interest paid in cash.
 - HF Berries Maroc S.A.R.L.: HESS purchased a 49% interest paid in cash.

Business combination

Atlantic Blue Group is a leading company dedicated to genetic development, processing, production and commercialization of Berries, in Europe and Northern Africa, with operations in Spain, Morocco and Peru.

The purchase will allow Hortifrut to increase its productive fields nearly 20%, by adding almost 850 hectares distributed in the three countries where Atlantic Blue operates. Of these, 400 hectares are in Spain and 248 hectares in Morocco, to which we add 50% of 400 hectares that are already consolidated in Olmos, Peru.

The purchase of hectares in Morocco will allow the company to complete the supply of own blueberries during the whole year to Europe. Together with the successful production of raspberries that are already produced in that country and Portugal, the company will close the supply circle of all the berries category for its European customers during the whole year.

Apart from Atlantic Blue's productive fields and installations, the transaction incorporates the SAT processing plant and the consolidation of 100% of Euroberry's commercial platform, with sales close to 200 million euros, as well as the development platform of Atlantic Blue's blueberries and cherries varieties around the world, which provides the company huge and new growth and investment opportunities in Europe and provides a solid base to satisfy the growing demand of European customers and consumers for the best berries.

Expenses related with the acquisition have been recorded in the income statement under the item Administration Expenses and Other expenses (loss), depending on their nature.

As per the guidelines established in IFRS 3 "Business Combination" and due to the proximity of the purchase to the closing date of the financial statements as of December 31, 2021, the Company is checking the valuation at fair value of the assets and liabilities.

As of June 30, 2022, the purchased net assets have been measured at fair value as of December 01, 2021, date of the taking of control, over the base of a provisional valuation awaiting the finalizing of the valuation performed by independent specialists. If new information obtained within a period of one year from the date of purchase regarding facts and circumstances that existed as of the purchase date identifies adjustments to the previous values, or any additional disposition that existed as of the date of the purchase, the accounting of the purchase within the framework of what is allowed by IFRS 3 will be revised.

The following table describes the paid price and the preliminary fair values of acquired assets and liabilities assumed as of the date of the purchase, identified as of the closing date of the current financial statements:

Detail distribution purchase price	<u>ThUS\$</u>

The total charge to result due to the depreciation of the periods ending June 30, 2022, and 2021 corresponds to ThUS\$24,460 and ThUS\$21,535, respectively.

Said values are presented in the income statement per function, in the following manner: ThUS\$23,484 (ThUS\$20,651 as of June 30, 2021) under the item Sales Costs, ThUS\$938 (ThUS\$843 as of June 30, 2021) under the item Administration Expenses and ThUS\$38 (ThUS\$41 as of June 30, 2021) in other expenses per function, as is presented in Note 33. The company pays for the amortization of property, plant and equipment in its production process, the variation of the adjustment as of June 30, 2022, is ThUS\$7,941 (ThUS\$8,597 negative as of June 30, 2021). Furthermore, depreciation expense includes ThUS\$928, corresponding to results consolidated line by line up to April 30, 2022, of the HFE Berries Perú S.A.C. company whose assets and liabilities were in condition to be sold as of that date.

The measuring of Property, plant and equipment, as well as the depreciation criteria for these, is described in Note Nota 3.3.

Assets in Leasing under the item Property, plant and equipment are separately detailed by item in Note 20 letter e).

“Bearer plants” in the item Property, plant and equipment, separated if they are “in development” or “in production”, are detailed in Note 20 letter g).

a) Estimated economic useful life or depreciation rate

The estimated economic useful life per type of asset is described in Note 3.3.3

The residual value and the useful life of the assets are checked, and adjusted if necessary, at each reporting date of the consolidated statements of financial position.

b) Insurance

Hortifrut S.A. and subsidiaries have contracted insurance policies to cover the risks that movable goods, vehicles, equipment, plants and machinery are subject to. The Company considers that the hedging of these policies is adequate for risks inherent to its activity (See Note 4.3).

c) Information regarding “Bearer Plants”

Hortifrut’s plantations are located in Chile from region IV to X, in Mexico in the states of Jalisco, Michoacán and Sinaloa, in Perú in the departments of Lambayeque and La Libertad, in Brazil in the municipality of Senador Amaral, in Ecuador in the province of Pichincha, in Spain in the province of Huelva and Aroche, in Morocco near Larache in the region of Tánger-Tetuan and in Agadir in the region of Sus-Masa, in the United States in the County of Kern, State of California, and in China in the prefecture of Honghe and Dehong, Province of Yunnan.

Said geographic dispersion, together with the associations in the northern hemisphere, allow the trade platforms to count with a continuous offer of all Berries during the 52 weeks of the year.

To count with several productive areas also allows greater closeness with the consumption centers. This is the case of plantations located in Mexico and the United States, which mainly supply the North American market, plantations in Spain and Morocco are able to supply part of the European market, Brazil and China commercialize production within the local market and Chile, Peru, Argentina and soon Ecuador, contribute the counter-season production for North America, Europe and Asia.

The production business has a great strategic importance, by allowing Hortifrut to count with a secure volume to take care of the requirements of its customers, develop niche markets, such as organic, assure in an efficient manner the opportunities to place its production in periods with a scarce offer and high prices, assure the quality of the fruit and develop productive management that via the transfer of know-how, can maximize the potential of our varieties with third party producers.

Below is a detail of the hectares planted per type of fruit:

Surface in Hectares	<u>30-Jun-22</u>	<u>31-Dec-21</u>
Blueberries	3,648	3,629
Organic Blueberries	441	689
Raspberries	397	272
Blackberries	60	59
Strawberries	18	8
Cherries	269	289
Total Planted Hectares	<u>4,833</u>	<u>4,946</u>
Own Hectares	2,291	2,645
Leased Hectares	2,542	2,301
Total Hectares	<u>4,833</u>	<u>4,946</u>
Productive Hectares	4,281	4,607
Non-Productive Planted Hectares	552	339
Total Hectares	<u>4,833</u>	<u>4,946</u>

d) Loss due to impairment in value

As of June 30, 2022, no events or changes in circumstances have taken place in the business that imply that the book value of Property, plant and equipment may not be recoverable, nevertheless, as is natural in assets denominated “bearer plants”, write-offs are realized when production is not profitable. In the period ending June 30, 2022, there are write-offs for the amount of ThUS\$48,117 of bearer plants (ThUS\$15,147 as of June 30, 2021). This is mainly explained by the write-off of bearer plants in Peru, Chile and Mexico associated to varietal turnover plans, with the objective of substituting unprofitable varieties for new varieties that in the future will provide higher levels of production per hectare, efficiency in production costs and the possibility to arrive with quality fruit to markets further away, satisfying in an improved

manner the demands of our customers and improving the profitability of the business.

As indicated in Note 3.3.2, if the book value is modified due to the presence of impairment of “bearer plants”, said decrease in value will be directly attributed to the results of the period under the account Other expenses, per function.

e) Financial lease (Property, plant and equipment on leasing)

The net book value as of June 30, 2022, and December 31, 2021, of the assets under financial lease, classified as Assets in Leasing under the item Property, plant and equipment, is as follows:

Denomination	30-Jun-22	31-Dec-21
	T hUS\$	T hUS\$
Construction		
Administrative offices	721	743
Parking administrative offices	29	30

Total Motor Vehicles	312	257	
General Total	2,034	3,006	

As of June 30, 2022, and December 31, 2021, there is no Property, plant and equipment temporarily out of service.

f) Property, plant and equipment totally depreciated

As of June 30, 2022, the detail of Property, plant and equipment which are totally depreciated is as follows:

	Gross Value
Detail	ThUS\$
Construction and infrastructure works	6,652
Machinery and equipment	8,900
Leased equipment	532
Information Technology (IT) equipment	648
Furniture and supplies	457
Motor vehicles	1,321
Total Property, plant and equipment	18,510

Historic costs are considered.

g) Productive bearer plants, in development or in production.

The book value of “Bearer Plants”, is distributed among plants in development or in production in the following manner:

Bearer Plants	Biologicals	Movement							
		01-Jan-22	Incorporation Atlantic Blue Group	Additions	Amortization	Transfers	Decreases and/or Reclassifications	Exchange rate adjustment	30-Jun-22
		ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$

Net amount as of 31-12-2021	1,025	91,463	87	485	1,417	94,477

The total charge to result because of depreciation of the periods ending June 30, 2022, and 2021 correspond to ThUS\$3,701 and ThUS\$4,188, respectively. Said values are presented in the income statement per function under the item Sales Cost (see Note 33.1).

The measuring of Right of Use Assets, the same as their depreciation criteria, is described in Note 3.24.

a) Estimated economic useful life or depreciation rates

The useful life is defined by the duration of the corresponding contracts, right of use depreciation is recognized monthly, said depreciation is calculated lineally during the term of the lease.

The Company does not maintain a residual value for this type of assets.

b) Insurances

Hortifrut S.A. and subsidiaries have contracted insurance policies to cover the risks that constructions, machinery, equipment and vehicles under lease are subject to. The Company considers that the hedging of these policies is adequate for the risks inherent to their activity (See Note 4.3).

NOTE 22 – CURRENT INCOME TAX AND DEFERRED TAXES

As of June 30, 2022, we proceeded to calculate and record taxable net income with a with a 27% rate (as of December 31, 2021, with the same rate), based on what was established by Law N° 20.780, Tax Reform, published in the Diario Oficial (Official Newspaper) on September 29, 2014.

The aforementioned Law establishes that since Hortifrut S.A. is a publicly traded company, as a general rule the “Partially Integrated Tax System” is applied to it.

In the other countries where Hortifrut has subsidiaries and associates, the corresponding tax rates are applied in accordance with the valid law.

Deferred tax assets and liabilities are offset if the right to offset the current tax assets and liabilities has been legally recognized and the deferred taxes refer to the same entity and tax authority.

a) Current income tax

The Company and subsidiaries maintain as of June 30, 2022, a current income tax provision of ThUS\$15,093 (ThUS\$17,456 as of December 31, 2021), which is presented net of credits applicable against income tax as of these dates for ThUS\$11,112 (ThUS\$23,306 as of December 31, 2021). In this manner, when presented net in the statement of financial position, as of June 30, 2022, an income tax liability is presented for ThUS\$3,981 (a recoverable tax asset for ThUS\$5,850 as of December 31, 2021).

Provisional payments and other credits that are applied to current income tax, are detailed below:

	30-Jun-22	31-Dec-21
Detail Recoverable Tax	ThUS\$	ThUS\$
Monthly Provisional Payments	8,248	19,679
Personnel Training	-	233
Other Credits	2,864	3,394
Total Credits	11,112	23,306
Income Tax Provision	(15,093)	(17,456)
Total Recoverable Tax (Income Tax Provision)	(3,981)	5,850

b) Deferred taxes

Deferred taxes correspond to the amount of tax over profits that Hortifrut and subsidiaries will have to pay (liabilities) or recover (assets) in future periods, related with temporary differences between the fiscal or tax base and the accounting book value of certain assets and liabilities.

The main deferred tax asset corresponds to the tax loss of Hortifrut and subsidiaries, which will be recovered in future periods. The main deferred tax liability payable in future periods, corresponds to the temporary differences originated by fair value adjustment of bearer plants and the revaluation of Property, plant and equipment (land and other fixed assets) as of the transition date to IFRS.

Deferred tax assets and liabilities as of June 30, 2022, and December 31, 2021, refer to the following concepts:

Detail	30-Jun-22		31-Dec-21	
	Deferred tax assets	Deferred tax liabilities	Deferred tax assets	Deferred tax liabilities
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Manufacturing expenses	-	8,613	-	7,663
Valuation bearer plants	-	70,590	-	73,080
Land appraisals	-	9,123	-	8,205

Price adjustments	-	13	5,787	-
Lease liabilities and others	11,318	-	10,313	-
FV Fruit on plants	-	-	-	294
Non-realized profits in investments	5,766	-	5,758	-
Offsetting for deferred tax liabilities	(13,656)	(13,656)	(18,475)	(18,475)
Total	31,583	92,343	34,215	82,894

Deferred tax hedging is presented net of other comprehensive income.

Deferred taxes have not been recognized for the temporary differences between the tax and accounting value generated by investments in Subsidiaries, so, deferred tax due to adjustments in conversion directly recorded in net equity, exposed in the other comprehensive income statement is also not recognized.

As of June 30, 2022, the deferred tax asset, originated by tax loss reached the amount of ThUS\$22,848 (ThUS\$21,239 as of December 31, 2021) which are chargeable to the profits which could be generated in the future at the companies that present said condition, as per the following detail:

		30-Jun-22	31-Dec-21
		ThUS\$	ThUS\$
Hortifrut S.A. de C.V.	Mexico	15,967	14,145

Total		22,848	21,239

Regarding the statute of limitations of tax loss susceptible to be charged to future profits, we can state that in the case of those generated in companies constituted in Chile, Peru, Brazil, United States, Ecuador and Spain, these do not prescribe. In Mexico, these have a tax loss carry forward expire of 10 years.

Recoverability of deferred tax assets from tax loss, the company recognizes these assets, in the measure that the corresponding societies can accredit that they will count with tax profits in a reasonable future.

Movement of deferred tax asset balances as of June 30, 2022, and December 31, 2021, is as follows:

	30-Jun-22	31-Dec-21

c) Cross Currency Swap Operations

The detail of the derivative instruments' portfolio as of June 30, 2022 and December 31, 2021 is as follows:

LIABILITIES					Capital Balance	Mark to Market Value	
Hedging instruments						ThUS\$	30-Jun-22
Entities	Instruments			Type		ThUS\$	ThUS\$
Banco Scotiabank	Cross Currency Swaps Bonos A- UF/USD			Currency	40,363	269	3,199
Banco Scotiabank	Cross Currency Swaps Bonos B- UF/USD			Currency	50,454	661	5,957
Banco de Crédito e Inversiones	Cross Currency Swaps - USD			Rate	37,800	98	2,745
Total non-current					128,617	1,028	11,901

The total of the fair value of these derivative instruments are recognized in other comprehensive income.

Swaps cover the significant variations in cash flows associated to the market risk implicit in the increases in LIBOR interest rate of 6 months for long term credits originated by investments. These contracts are recorded as cash flow hedging contracts.

The type of fees indicated in the forwards, are presented from the company's perspective, for banks it is the opposite.

d) Currency Forwards operations:

The details of currency forwards operations held by Hortifrut and subsidiaries as of June 30, 2022, and December 31, 2021, is as follows:

Bank	Contract Modality	Fees Type	Currency	Liabilities Amount	Currency	Closing Value	Net Effect Offsetting	Mark to Market					Total Current	Maturity up to		Total Non-Current

Adjusted Net Financial Cost	(23,259)	(13,632)	(14,580)	(4,953)

Financial risk management policies

The Company, following the financial risk management policy described in note 4.1, contracts financial derivatives to cover its exposure to the exchange rate and interest rate fluctuations.

Derivatives to cover the exposure of the exchange rate fluctuations which Hortifrut S.A. and subsidiaries currently maintain correspond to derivative instruments classified as Cross Currency Swaps (CCS), Currency Forwards and Options. The first are used to hedge the variable interest rate of the financial debt, the others are used to assure exchange rate levels for future transactions.

The conciliation of movements as of June 30, 2022, and December 31, 2021, between financial liabilities (banks) and cash flows for financing activities is as follows:

Concepts	Cash Flows							30-Jun-22

NOT 27 - ISSUED CAPITAL

The objectives of Hortifrut and subsidiaries when administering capital are to safeguard the capacity to continue as a going concern, in order to generate returns for its shareholders, benefits to other interest groups and to maintain an optimum structure to reduce the cost of capital.

Consistent with the industry, Hortifrut and subsidiaries monitor their capital with the leverage ratio base. This ratio is calculated by dividing the net financial debt among the total capital. The net financial debt corresponds to the total debt with banks (including current and non-current debt) minus cash and cash equivalents. Total capital corresponds to equity just as is shown in the consolidated statement of position plus net debt.

In this aspect Hortifrut and subsidiaries have combined different sources of financing such as: operation flows and bank credits, among others.

a) Subscribed, paid, to be subscribed capital and number of shares

Subscribed and paid capital as of June 30, 2022, reaches ThUS\$472,212 (ThUS\$472,212 as of December 31, 2021) equal to 577,323,671 shares of a single series and without nominal value as of June 30, 2022, and December 31, 2021.

b) Movements of 2022

During the period ending June 30, 2022, there have not been any movements in capital.

c) Movements of 2021

During the period ending December 31, 2021, there have not been any movements in capital.

d) Issuance premium

The issuance premium as of June 30, 2022, reaches ThUS\$3,751 (ThUS\$3,751 as of December 31, 2021).

The share issuance premium originated in 2019, in the framework of the issuance of shares inscribed in the Securities Registry of the Commission for the Financial Market under N°1.084, dated June 27, 2019.

NOTE 28 – ACCUMULATED RETAINED EARNINGS (LOSS)

The detail of accumulated result as of June 30, 2022, and December 31, 2021, is as follows:

Movement	30-Jun-22	31-Dec-21
	ThUS\$	ThUS\$
Opening balance	196,129	161,414
Profit (loss), attributable to parent company	20,679	61,676
Minimum dividend provision	-	(26,961)
Reversal minimum dividend provision previous year	26,961	27,311
Paid dividend	(26,961)	(27,311)
Total	<u>216,808</u>	<u>196,129</u>

a) Dividend policy

As per what is stated in the Corporation Law, the Company is obligated to the distribution of an obligatory minimum dividend equal to 30% of profits, nevertheless and as per the corporate statutes, the minimum dividend established for the Company is at least 50%, unless otherwise agreed at the corresponding meeting, by unanimity of the issued shares.

In virtue of what was informed to the Commission for the Financial Market (CMF), related with regulation (circular) N° 1945, in order to determine the Company's net distributable profit, to be considered to calculate the dividend, the following will be excluded from gains attributable to the controller's parent Company:

1. Non-realized results linked with the fair value record of the biological assets regulated by "IAS 41" accounting standard, reintegrating them to the net profit at the moment of its realization. For these effects, the portion of said increases in fair value corresponding to the assets sold or allocated by another means will be understood to be realized.
2. Non-realized results generated in the acquisition of other entities and, in general, those non-realized results that are produced due to the application of paragraphs 34, 42, 39 and 58 of the "International Financial Reporting Standards N° 3", amended accounting standard, that refers to business combination operations. These results are also reintegrated to the net profit at the moment of their realization. For these effects, results are understood to be realized when the acquired entities generate profit after their acquisition, or when said entities are disposed of.
3. The effects of deferred taxes associated to the concepts indicated in 1) and 2) will follow the same fate as the item that originated them.

b) Distributable net profit

The dividend policy consists of distributing as dividend 50% of the period's net profit, and through the distribution of a final dividend, which the Ordinary Shareholder's Meeting must agree, payable on the date that said meeting designates.

Additional dividends will be determined based on the mentioned criteria, as per the corresponding agreement adopted at the Shareholders Meeting.

c) Dividend Provision

The Company, in the period ending June 30, 2022, did not record provision for minimum dividend (ThUS\$26,961 as of December 31, 2021).

Below is the calculation of the result to be distributed for the period ending December 31, 2021:

Concept	31-Dec-21 ThUS\$
Gains attributable to owners of the parent company	61,676
Minus:	
Increase biological assets to fair value	i. (2,395)
Deferred taxes	295
Non realized result deferred tax assets for sale	<u>(5,655)</u>
Result to be distributed	<u>53,921</u>
Minimum dividend %	50.00%
Minimum Accrued Dividend	26,961

i. Non-realized results linked to the recording at fair value of biological assets regulated by "IAS 41" accounting standard.

Dividends paid by Hortifrut S.A.

Below is a detail of the dividends paid in the previous years:

Month and year of payment	Type	Last years ThUS\$
May-20	Definite	<u>4,373</u>
	Total year 2020	<u>4,373</u>
May-21	Definite	<u>27,311</u>
	Total year 2021	<u>27,311</u>
May-22	Definite	<u>26,961</u>
	Total year 2022	<u>26,961</u>

NOTE 29 – OTHER RESERVES

The other reserves that are presented in the consolidated statement of changes in equity, are of the following nature:

Reserves purchase of minority interest - corresponds to the difference between the price assigned to the minority interest purchased from the companies Euroberry Marketing S.A., Hortifrut España Southern Sun SLU and HFE Berries Perú SAC and its equity value in books, all associated to the purchase of Atlantic Blue Group.

Cash Flow hedging reserve – Corresponds to the difference between spot values and the fair value of the cash Flow hedging contracts (CCS) which are qualified as efficient, net of deferred tax.

Reserves due to exchange rate fluctuations – This balance reflects the accumulated results, by exchange rate fluctuations, when converting the financial statements of subsidiaries, from their functional currency to Hortifrut's reporting currency (United States Dollars).

The detail of the account Other Reserves and its movement is as follows:

Movement	30-Jun-22 ThUS\$	31-Dec-21 ThUS\$
Opening balance	(72,646)	(9,242)
Reserves for minority interest purchase	-	(47,580)
Cash flow hedging reserves	4,630	(9,178)
Reserves for exchange rate fluctuations	<u>(14,013)</u>	<u>(6,646)</u>
Total	<u>(82,029)</u>	<u>(72,646)</u>

Other Reserves	30-Jun-22 ThUS\$	31-Dec-21 ThUS\$
Cash flow hedging reserves (*)	(5,825)	(10,455)
Reserves for minority interest purchase	(47,580)	(47,580)
Reserves for exchange rate fluctuation	<u>(28,624)</u>	<u>(14,611)</u>
Total	<u>(82,029)</u>	<u>(72,646)</u>

(*) The movement of cash flow hedging reserves as of June 30, 2022, and December 31, 2021, are as follows:

Mov. Cash flow hedging reserves	30-Jun-22 ThUS\$	31-Dec-21 ThUS\$
Opening balance	(10,455)	(1,277)
Other comprehensive income	<u>4,630</u>	<u>(9,178)</u>
Total	<u>(5,825)</u>	<u>(10,455)</u>

Cash Flow hedging reserve is net of deferred tax.

Income tax included in cash flow hedging reserves is detailed below:

Cash flow hedging reserves	30-Jun-22 ThUS\$	31-Dec-21 ThUS\$
Cash flow hedging reserves	(8,008)	(14,361)
Gains tax	<u>2,183</u>	<u>3,906</u>
Total	<u>(5,825)</u>	<u>(10,455)</u>

The movement of reserves due to exchange rate fluctuations as of June 30, 2022, and December 31, 2021, is as follows:

Mov. Exchange rate fluctuation reserves	30-Jun-22 ThUS\$	31-Dec-21 ThUS\$
Saldo al inicio	(14,611)	(7,965)
Otro resultado integral	<u>(14,013)</u>	<u>(6,646)</u>
Total	<u>(28,624)</u>	<u>(14,611)</u>

NOTE 30 – NON-CONTROLLING INTERESTS

Corresponds to the recognizing of equity value and the result of the subsidiaries that correspond to minority investors.

The detail of interests of non-parent companies as of June 30, 2022, and December 31, 2021, and the interest of non-parent companies in the results as of June 30, 2022, and 2021, are the following:

Subsidiaries	Non controlling interest percentage		Non controlling interest equity		Non controlling interest in profit (loss) result

NOTE 31 – PROFITS PER SHARE AND DISTRIBUTABLE NET PROFIT**31.1. Profits per share**

The calculation of profits per share has been performed by dividing the amount of profits attributable to the shareholders by the weighted average of the number of shares of the single series. Hortifrut has not issued a convertible debt or other equity values. As a result, there are no potentially diluting effects in the Company's income per share.

The detail of profits per share is as follows:

Basic profit (loss) per share	Measuring unit	30-Jun-22	30-Jun-21
Profit (loss) of continued activities after tax	ThUS\$	20,679	11,273
Basic weighted average number of shares	Unit	577,323,671	577,323,671
Basic profit per share from continued operations	(US\$ per share)	0.035819	0.019526

The calculation of the weighted average of the number of shares in circulation, is detailed below:

Weighted average of ordinary shares in circulation	N° of days in circulation	N° of Shares	% Weighting	Weighted average of ordinary shares in circulation	
				30-Jun-22	31-Dec-21
Opening balance	181	577,323,671	100%	577,323,671	577,323,671

NOTE 32 – OPERATING REVENUE AND OTHER REVENUE, PER FUNCTION

The detail of the item for the periods ending June 30, 2022, and 2021 is as follows:

Concept	Quarter			
	30-Jun-22	30-Jun-21	01-Apr-22	01-Apr-21
			30-Jun-22	30-Jun-21
ThUS\$	ThUS\$	ThUS\$	ThUS\$	
Revenue from operating activities	453,954	396,678	167,918	152,607

NOTE 38- CONTINGENCIES

a) Pledged shares

The total of the participations of Atlantic Blue S.L.U.'s subsidiaries, and Hortifrut España Southern Sun, S.L.U., are pledged in virtue of the contracts subscribed by Hortifrut Inversiones Internacionales, S.A., dated December 01, 2021, in guarantee of the compliance of the installment payment obligations in front of the companies Hayler Berry Invest, S.L., and Patrimonial Arándalus, S.L., in the context of the business combination derived from the purchase of 100% of Atlantic Blue, S.L.U.'s corporate capital.

The constituted pledges will be partially paid as the installment payment obligations are complied with and totally when completely paying the price, as is indicated in each of the contracts.

b) Direct guarantees

Dated February 12, 2015, a Standby Letter was issued with Banco Estado bank in order to guarantee the faithful compliance of the payment commitment with Royal Berries S.L. for the purchase of an operating license for varieties of berries. As of June 30, 2021, the balance of the Standby Letter was at US\$1.47 million.

At the subsidiaries Agrícola Santa Rosa del Parque S.A., Agrícola Mataquito S.A., Agrícola El Pampino S.A., and Agrícola Hortifrut S.A. there are restrictions (guarantees and/or mortgages) over its biological assets.

Below is a detail of the book value of the assets given in guarantee, as well as the debt associated to these assets in Chile:

<u>Company</u>	<u>Bearer Plants</u>	<u>Other Properties</u>	<u>Associated Debt</u>

<u>Plaintiff</u>	<u>Defendant</u>	<u>Type of Lawsuit</u>	<u>Claimed Amount</u>	<u>Probable Resolution</u>	<u>Provision</u>
Hortifrut S.A. de CV	Agrícola Gavilanes	Executory Commercial (*)	USD 173,420	Favorable for Hortifrut	50% provisioned
Hortifrut S.A. (Ex VBM)	Marchant Morales	Executory Commercial	USD 138,694	Uncertain	Provisioned
Confederación Hidrográfica de Guadalquivir	Hortifrut España Southern Sun SLU	Water Law Infringement	EUR 127,039	Uncertain	Provisioned

(*) Net provisions have been constituted of the seizable guarantees.

g) Other contingencies

The Company, to the closing of these Financial Statements, does not maintain other contingencies that could significantly affect the current financial statements.

NOTE 39 – ENVIRONMENT AND OTHER SUSTAINABILITY INITIATIVES

Hortifrut is a Company that is concerned with the environment. Most of its production in Chile has been converted to organic production, thus becoming the largest organic blueberry producer in the world.

As of June 30, 2022, there are no initiatives to inform.

Climate Change and Carbon Footprint			Investment	\$	58,398
Initiative		Description	Impact	SDG	Subsidiary
Second year of Corporate Carbon Footprint Measurement	\$ 13,467	Second season we measure our carbon footprint at 53 own operations (33 fields and 20 packings) in Chile, Peru and Mexico.	With the results of this second measurement we can identify reduction opportunities and establish concrete objectives.		Chile, Peru, Mexico
Transversal Sustainability KPI	\$ 40,737	During the 21-22 season all the collaborators of Hortifrut Chile, Peru and Mexico worked under a KPI whose objective was to establish reduction opportunities in the carbon footprint, then 9 projects were prepared with concrete associated reduction objectives, mainly at the Operation teams of the different subsidiaries.	Estimated reduction is 7% of our carbon footprint (Chile, Peru and Mexico) in the 22-23 season compared to the base line (20-21 season).		Chile, Peru, Mexico
Investigation Carbon Capture of own harvests	\$ 4,194	Together with the University of Huelva, during 2022 we will perform a study to determine the capturing of CO2 at our harvests in Spain and Peru. The study is currently taking place in Spain, and Peru will be incorporated in the second semester.	To know the real carbon capture of our harvests allows us to have a complete measurement of the carbon footprint, and thus we have the opportunity of reduction and/or compensation.		Spain, Peru
Sustainable Packaging	Without investment, the prices related to previous materials are maintained	For this season our packaging counts with: -75% "Wash Away" labels, which have an easy removal from the package, which makes them 100% recyclable. -Backages from Chile with 10% certified Ocean Cycle plastic, which was rescued from coasts and water shores, avoiding they end up in the ocean. -100% RPET packaging, all the plastic of our packaging is recycled and recyclable. -Certified FSC/PEFC cardboard boxes, to make sure that the raw materials comes from forests with sustainable management.	Recycled material issues on average 60 times less greenhouse effect gas emissions than virgin material, which contributes to decreasing our carbon footprint.		Corporate

Sustainable Agriculture			Investment	\$	207,291
Initiative	Investment (USD)	Description	Impact	SDG	Subsidiary
Blue Certificate	\$ 7,206	Participation in Clean Production Agreement (CPA) of Fundación Chile and the Sustainability and Climate Change Agency, with Agrícola Santa Rosa del Parque.	First measurement of hydric footprint as a pilot program to overlap the project at a corporate level.		Chile
Fields in Chile operate with 55% Non Conventional Renewable Energy (NCRE)	\$8,319 benefit	Thanks to the photovoltaic plants installed at own fields in Chile together with the Solarity company, 55% of our production's energy at this subsidiary is renewable.	Clean energy helps to decrease our carbon footprint, and at stations with a lower energy use the produced surplus supplies the local communities. Also, on average there is a 7% economic benefit in invoicing.		Chile
Storage for valuation of residues	\$ 52,303	In order to organize and manage the different types of residues that are generated at the installations in Trujillo, from February 2022 we began operating a new residues storage, which counts with an area of 2,000m2 for the handling of solid residues.	Estimation of 80% recycling of generated residues.		Peru
Composting of organic residues	\$ 147,782	Project that aims to transform organic material into supplies, in this manner, materials such as pruning waste, discarded fruit and others, become compost and subproducts, where thanks to the present microorganisms that act on biodegradable material, an organic fertilizer is obtained. Thus, this fertilizer is used as a nutrient that allows to improve fertility and soil structure, stimulating biological activity and helping reduce erosion.	Composting is performed on 67 hectares of the field, which has produced 2,640 tons of finished compost, and 3,840 tons in process.		Peru
Registry of agricultural plastic residues	Without associated investment	In order to recycle the plastic material discarded after the season in our fields, we prepared a registry of the type and amount of residues that each operation holds, to thereby manage alliances and recycle residues with the greater traceability available in the market.	Recovery of 113 tons of plastic, backing circular economy.		Chile

Community			Investment \$		194,714
Initiative		Description	Impact	SDG	Subsidiary
Donation to a sports club	\$ 1,000	As part of the initiatives to encourage culture and sport, a donation was made to Curepto's Tennis Sports Club; the donation consisted on the providing of sports equipment such as T-shirts and caps for 25 children for their daily training and regional championships. Said donation was motivated by the high vulnerability of the community and the economic sacrifice that the children and youth's parents make so that their children can perform these activities.	25 children benefitted		Chile
Remodeling of gardens and yards Escuela San Francisco de Cunco Chico, Padre las Casas	\$ 5,361	Together with Fundación Educa Araucanía and Mi Parque, we built at the Nursery and Kindergarten an outdoors classroom to promote learning, good relationships and safe spaces. This initiative aims to improve socio-emotional development, healthy life style habits, resilience and learning based on experiences, enriching the work of educators and assistants when providing tools to promote active games and learning, in an environment designed to revitalize Mapuche cultural identity from the cradle.	Over 300 children benefitted		Chile
Mobile Dental Clinic	\$ 21,278	This year we have once again started to operate this dental medical check-up service for our collaborators and neighboring communities throughout Chile. We travel around the country for several months so that people can check their dental health and thus avoid future risks.	300 consultations at a national level.		Chile
Zero Anaemia Program	\$ 21,229	Committed with the wellbeing of communities and focused on contributing to reducing anaemia indicators in the locality, in coordination with Nuevo Chao Health Center, we successfully finalized the Zero Anaemia program which attends children younger than 5 years old at Valle de Dios and Nuevo Chao, at La Libertad. 242 children participated in this program, and out of those that were diagnosed with anaemia, 73% recovered and could improve their quality of life.	700 children and their families benefitted.		Peru
More Soccer Program	\$ 15,353	Directed at children between 6 and 16 years old at Valle de Dios. Through this program we aim to generate teachings in the children in topics of gender equality, empowering of women, and children's rights, through soccer, which can also strengthen the family bond in our community. We benefitted over 150 children and their families.	150 children and their families benefitted.		Peru
Donation of baskets with supplies for elderly adults	\$ 5,852	Thanks to our collaborators that participated in a volunteer session, we managed to donate over 200 baskets with supplies and food to popular dining rooms for elderly adults.	Over 200 benefitted.		Peru
CEBA Hortifrut Program (Alternative Basic Education Center)	\$ 5,000	We developed the first in-person class of CEBA Hortifrut where workers attended who benefitted from the program of the different areas in the organization, who also participated in a dynamic and practical Reading Plan session to develop their abilities and knowledge.
